The screenshot shows the SSRN website interface. At the top, the SSRN logo and the text "SOCIAL SCIENCE RESEARCH NETWORK" are visible. Below this is a navigation bar with links: Home, Search, Browse, Submit, Subscribe, Shopping Cart, MyBriefcase, and Top Papers. A "MEMBER SIGN IN" section on the left includes a "First-time user? Free Registration" link, a "USER ID" and "PASSWORD" input fields, a "Sign In" button, and a "Forgot ID or Password? | Contact Us" link. A "RESEARCH NETWORKS:" section lists various disciplines and their corresponding acronyms: Accounting (ARN), Anthropology & Archaeology (AARN), Cognitive Science (CSN), Corporate Governance (CGN), Economics (ERN), Entrepreneurship (ERP), Finance (FEN), Health Economics (HEN), Hebrew (HRN), Humanities: Classics (CRN), Humanities: Literature (LIT), and Humanities: Music (MUS). A "Leading Social Science Research Delivered Daily" section mentions that SSRN is devoted to the rapid worldwide dissemination of social science research. A "Recent Announcements" section includes links to "Announcing East-West Center Workshop on Mega-Regionalism" and "SSRN's 2015 Year-End President's Letter".

Red académica y repositorio dedicados a la difusión de la investigación en el campo de las ciencias sociales y humanidades, de especial importancia en Economía y Derecho.

The advertisement features a background image of two beakers pouring liquids into a larger container. On the right side, the text reads: "For Universities", "Easily keep track of the level of your university is receiving from individual academic faculties. [More...](#)".

newsflo
bespoke media monitoring

Servicio comercial para el seguimiento del impacto de la investigación de las instituciones en redes sociales, medios de comunicación, etc.

Monitoring made easy

Media monitoring shouldn't be a chore. With newsflo, it's easy to keep track of coverage at all levels of your institution. We offer tailored solutions to ensure that our software perfectly meets your needs, with a wide range of innovative features to make life easier.

Mendeley Desktop

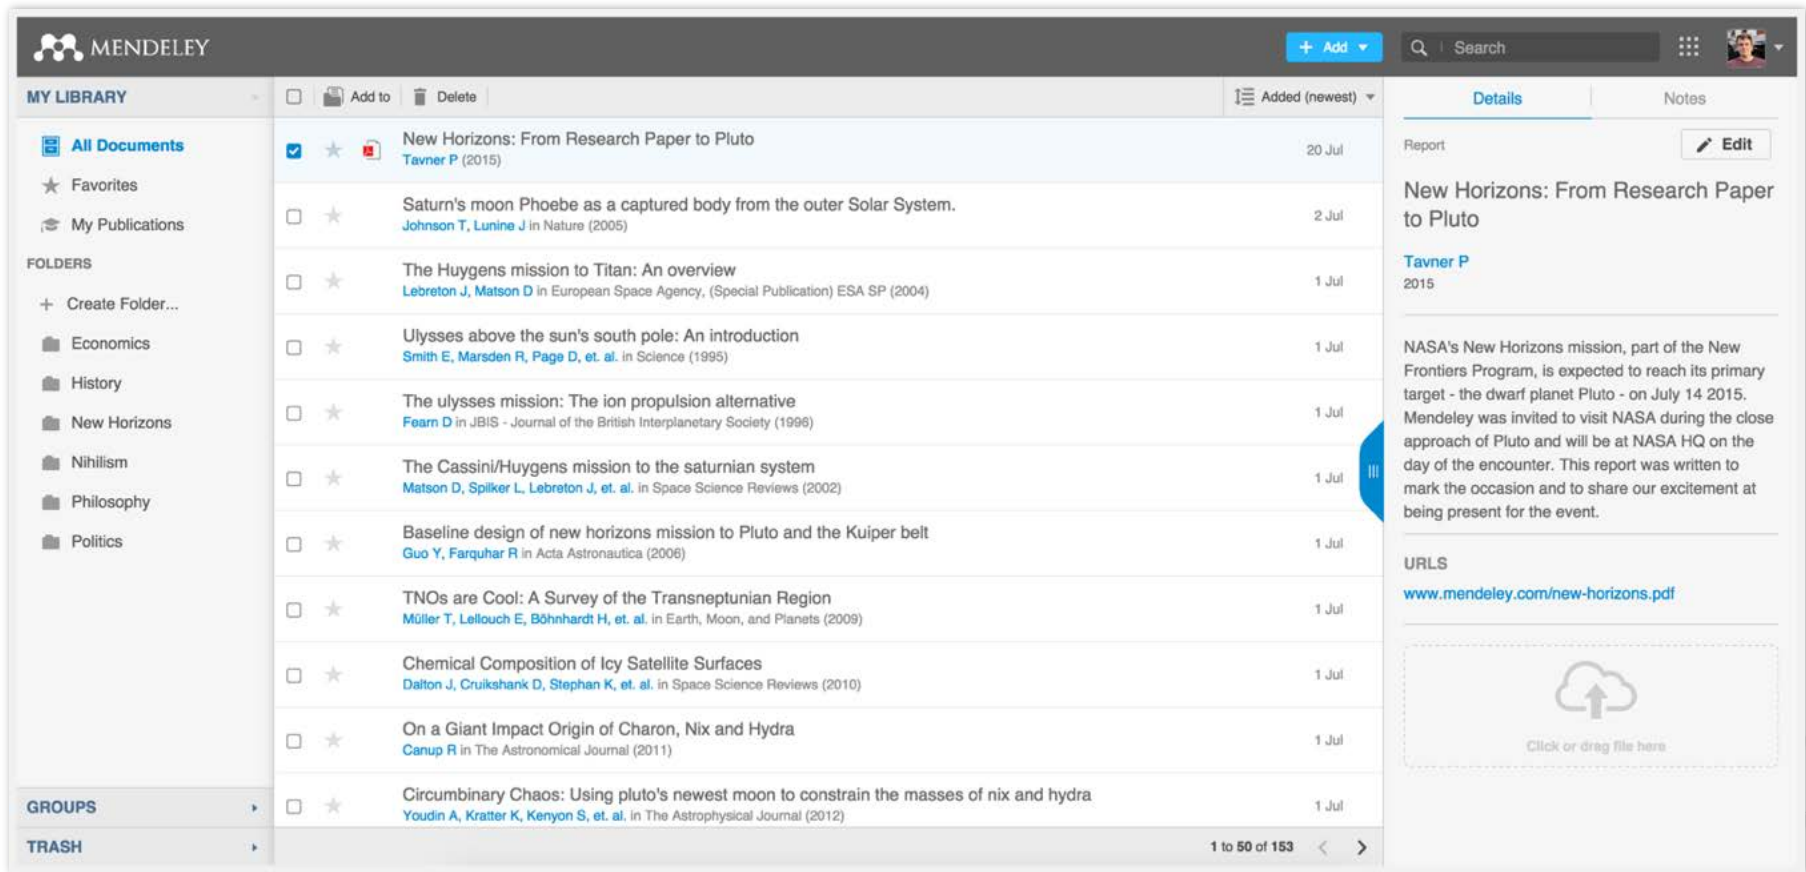

The screenshot displays the Mendeley Desktop application window. The interface is divided into several sections:

- Top Bar:** Includes icons for Documents, Folders, Related, and Sync, along with a search bar.
- Left Sidebar:** Contains the 'MELENDELEY' section with 'Literature Search' and 'Mendeley Suggest', and the 'MY LIBRARY' section with various filters like 'All Documents', 'Recently Added', 'Recently Read', 'Favorites', 'Needs Review', 'My Publications', 'Unsorted', 'Economics', 'Example', 'History', 'New Horizons', 'Nihilism', 'Philosophy', 'Politics', 'Testing for Advisor', and 'Create Folder...'. Below this is a 'Filter by My Tags' section with a list of tags including 'All', 'Altmetrics', 'demo', 'fluid', 'fluid dynamics', 'logrank', 'Mendeley', 'NASA', 'no idea', 'Philosophy', 'Philosophy of History', 'project x', 'Rosetta', 'senses', 'Space', 'speech', 'tagging', 'tags', and 'technology'.
- Main Document List:** A table with columns for Authors, Title, Year, Published In, and Added. The list includes documents such as 'NASA DSN Now', 'Hawking, Stephen New Horizons', 'Tavner, Paul New Horizons: From Research Paper to Pluto', 'Johnson, Torrence V; Luni... Saturn's moon Phoebe as a captured body from the outer Solar System', 'Lebreton, Jean Pierre; Mat... The Huygens mission to Titan: An overview', 'Smith, Edward J.; Marsde... Ulysses above the sun's south pole: An introduction', 'Fearn, D. G. The ulysses mission: The ion propulsion alternative', 'Matson, Dennis L.; Spiker... The Cassini/Huygens mission to the saturnian system', 'Guo, Yanping; Farquhar, R... Baseline design of new horizons mission to Pluto and the Kuiper belt', 'Müller, Thomas G.; Lellou... TNOs are Cool: A Survey of the Transneptunian Region', 'Dalton, J. B.; Cruikshank, ... Chemical Composition of Icy Satellite Surfaces', 'Canup, Robin M. On a Giant Impact Origin of Charon, Nix and Hydra', 'Youdin, Andrew N.; Kratter... Circumbinary Chaos: Using pluto's newest moon to constrain the masses of nix and hydra', 'Jones, Brant M.; Kaiser, R... Application of Reflectron Time-of-Flight Mass Spectroscopy in the Analysis of Astrophysically Relevant Ices Exposed ...', 'Kenyon, Scott J.; Bromley, ... The Formation of Pluto's Low-Mass Satellites', 'Person, M. J.; Dunham, E. ... The 2011 June 23 Stellar Occultation by Pluto: Airborne and Ground Observations', 'NASA New Horizons - Team', 'Beede, David; Julian, Tiffa... Women in STEM: A Gender Gap to Innovation', 'Guo, Y.; Farquhar, R. W. New horizons mission design for the Pluto-Kuiper belt mission', 'Olkin, C.B.; Young, L.A.; B... Evidence that Pluto's atmosphere does not collapse from occultations including the 2013 May 04 event', and 'Olkin, C. B.; Young, L. A.; ... Pluto's Atmosphere Does Not Collapse'.
- Right Panel:** Provides details for the selected document, 'New Horizons: From Research Paper to Pluto' by P. Tavner. It includes the document type (Report), authors (P. Tavner), year (2015), pages, abstract (NASA's New Horizons mission, part of the New Frontiers Program, is expected to reach its primary target - the dwarf planet Pluto - on July 14 2015. Mendeley was invited to visit NASA during the close approach of Pluto and will be at NASA HQ on the day of the encounter. This report was written to mark the occasion and to share our excitement at being present for the event.), tags, author keywords, city, institution (Mendeley), URL (http://www.mendeley.com/new-horizons.pdf), catalog IDs (DOI), and files.

At the bottom of the window, it indicates '1 of 161 documents selected'.

Mendeley Web

The screenshot displays the Mendeley Web interface. On the left, the 'MY LIBRARY' sidebar shows 'All Documents' and 'FOLDERS' including Economics, History, New Horizons, Nihilism, Philosophy, and Politics. The main area lists documents with checkboxes, star icons, titles, authors, and dates. The right sidebar shows the 'Details' for the selected document, 'New Horizons: From Research Paper to Pluto' by Tavner P (2015), including a report text and a URL.

Document Title	Author(s)	Date
New Horizons: From Research Paper to Pluto	Tavner P (2015)	20 Jul
Saturn's moon Phoebe as a captured body from the outer Solar System.	Johnson T, Lunine J in Nature (2005)	2 Jul
The Huygens mission to Titan: An overview	Lebreton J, Matson D in European Space Agency, (Special Publication) ESA SP (2004)	1 Jul
Ulysses above the sun's south pole: An introduction	Smith E, Marsden R, Page D, et. al. in Science (1995)	1 Jul

New Horizons: From Research Paper to Pluto

Tavner P
2015

NASA's New Horizons mission, part of the New Frontiers Program, is expected to reach its primary target - the dwarf planet Pluto - on July 14 2015. Mendeley was invited to visit NASA during the close approach of Pluto and will be at NASA HQ on the day of the encounter. This report was written to mark the occasion and to share our excitement at being present for the event.

Abstract:
This paper aims to explore how the principles of a well-known Web 2.0 service, the world's largest social music service "Last.fm" (www.last.fm), can be applied to research, which potential it could have in the world of research (e.g. an open and interdisciplinary database, usage-based reputation metrics, and collaborative filtering) and which challenges such a model would face in academia. A real-world application of these principles, "Mendeley" (www.mendeley.com), will be demoed at the IE...

Mis publicaciones

The screenshot shows the Mendeley Desktop application window. The menu bar includes File, Edit, View, Tools, and Help. The toolbar contains icons for Add Files, Folders, Related, Share, and Sync. The left sidebar is divided into sections: Mendeley (with Literature Search), My Library (with All Documents, Recently Added, Favorites, and My Publications), Groups (with Mendeley for Librarians, Acceso abierto y Repositorios, altmetrics, Library and Information Science, and another Mendeley for Librarians), and Trash (with All Deleted Documents). The 'My Publications' item in the sidebar is highlighted with a blue bar, and a large grey arrow points from it to the main content area. The main content area has a dark grey background and features the text 'Podemos autoarchivar nuestras publicaciones en Mendeley. Estarán vinculadas y visibles en nuestro perfil' in white. Below this text is the heading 'Track your published research' and a white box with the instruction 'Drag and drop papers you've authored here (or click to add papers manually)'. A 'What's this?' button is located below the white box. At the bottom of the main content area, a note states: 'Note: PDFs will be publicly available for download from your profile.'

☐ **Journal:** *Genome Research*

☐ **Year:** 2010

☐ **Volume:** 20

☐ **Issue:** 4

☐ **Pages:** 413-427

☐ **Abstract:**
Global studies of transcript structure and abundance in cancer cells enable the systematic discovery of aberrations that contribute to carcinogenesis, including gene fusions, alternative splice isoforms, and somatic mutations. We developed a systematic approach to characterize the spectrum of cancer-associated miRNA alterations through integration of transcriptomic and structural genomic data, and we applied this approach to generate new insights into melanoma biology. Using paired-end massively parallel sequencing of cDNA (RNA-seq) together with analyses of high-resolution chromosomal copy number data, we identified 11 novel melanoma gen...

File Organizer

The screenshot shows the 'File Organizer' tab in the Mendeley Preferences window. The window has a title bar with three window control buttons and the title 'Preferences'. Below the title bar is a tab bar with six tabs: 'General', 'Document Details', 'File Organizer' (selected), 'Watched Folders', 'BibTeX', 'Zotero', and 'Connection'.

Under the 'File Organizer' tab, there are two main sections:

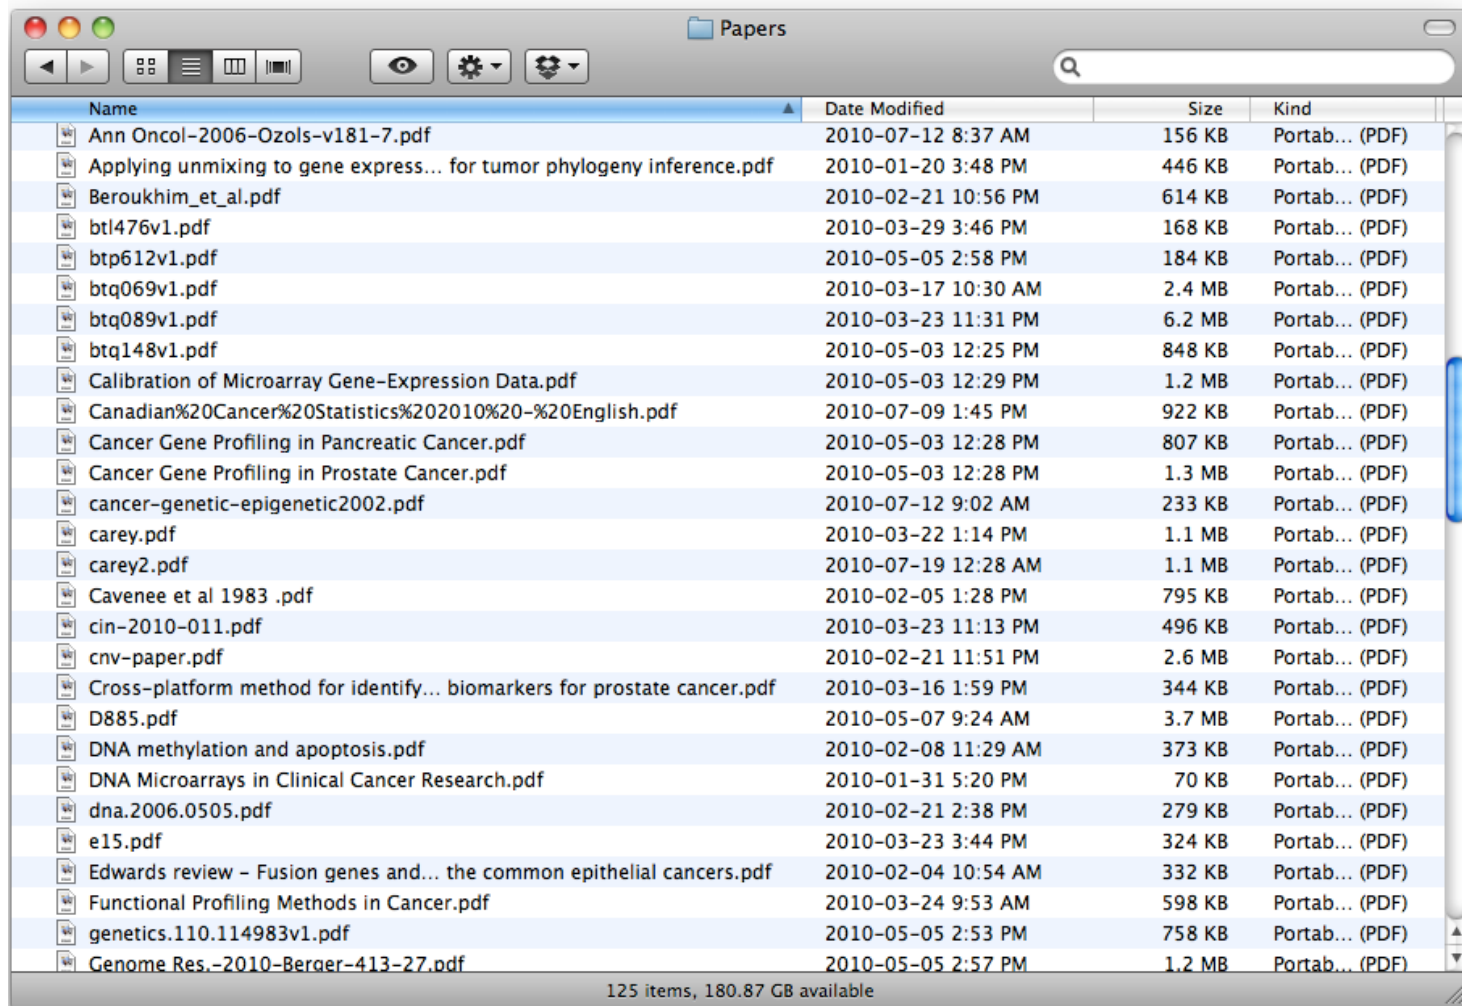

- Organize my files:** This section is enabled with a checked checkbox. It includes a text field for 'Copy files to:' containing the path '/Users/rvidal/Documents/Mendeley Desktop', with 'Browse...' and 'Tidy Up' buttons to its right. Below this is a blue link labeled 'View in Finder'.
- Sort files into subfolders:** This section is disabled with an unchecked checkbox. It includes a text field for 'Unused fields:' containing 'Year' and 'Title'. Below this is the instruction 'Drag bubbles down to add or up to remove.' and a text field for 'Folder path:' containing 'Author' and 'Journal'. Below this is an 'Example:' label followed by the path '/Users/rvidal/Documents/Mendeley Desktop/Author/Journal/'.

Below these sections is another section:

- Rename document files:** This section is enabled with a checked checkbox. It includes a text field for 'Unused fields:' containing 'Journal'. Below this is the instruction 'Drag bubbles down to add or up to remove.' and a dropdown menu set to 'Hyphen-separated'. Below this is a text field for 'File name:' containing 'Year', 'Author', and 'Title'. Below this is an 'Example:' label followed by the filename 'Year - Author - Title.pdf'.

At the bottom of the window are three buttons: 'Apply', 'Cancel', and 'OK'.

The screenshot displays the Mendeley Desktop application interface. The main window shows a document titled "New Horizons" with the following content:

New Horizons

The New Horizons mission received approval in November 2001¹. Its objective was to send a spacecraft to Pluto - the only unexplored planet (still recognized as a planet at that time) in the solar system. Previous missions intended to reach Pluto - including *Pluto Fast Flyby* and *Pluto Kuiper Express* - had been cancelled, but after a thorough new profile selection process, NASA committed to launching *New Horizons* as part of its New Frontiers program.

Due to the distances involved - New Horizons would have to cover nearly three billion miles to reach its objective - it was designed to have as little mass as possible, but would be launched using the huge Atlas V expendable launch vehicle. This guaranteed the greatest possible velocity for the craft.

When the mission launched on 19 January 2006, the probe left Earth on a solar system escape trajectory of 37,000 mph. It crossed the Moon's orbit just eight hours and thirty-five minutes after lift-off, and reached Pluto 78 days later. The probe gained a gravity boost from the gas giant Jupiter to accelerate past 51,000 mph, but over eight years to travel to its objective. New Horizons is expected to make its closest approach of Pluto on July 14, 2015².

Phoning Home

Communicating with a probe three billion miles from Earth poses a number of challenges for the New Horizons team. Luckily, they can rely on NASA's Deep Space Network.

1. Radioisotope Thermoelectric Generator (RTG)
Provides electrical power produced by plutonium-238 fuel.

2. Alice
A sensitive ultraviolet imaging spectrometer used to study atmospheric composition and structure.

3. Ralph
Imaging apparatus used to photograph and map surface details during the encounter.

4. Venetia Burney Student Dust Counter (SDC)
Designed by students at the University of Colorado at Boulder. Measures concentration of dust particles.

5. Long Range Reconnaissance Imager (LORRI)
Camera and telescope apparatus used to take photos of target at longer ranges.

6. Solar Wind Around Pluto (SWAP)
Instrument used to measure solar wind activity in the vicinity of Pluto. Also measures atmospheric escape.

7. Pluto Energetic Particle Spectrometer Science Investigation (PEPSSI)
Directional energetic particle spectrometer. Used to study energetic particles in Pluto's atmosphere.

8. Radio Science Experiment (REX)
Performs radio science experiments on Pluto's atmosphere.

A yellow sticky note is overlaid on the document, containing the following text:

You 08/09/2015 16:41

This sticky note allows you to annotate the paper in specific locations.

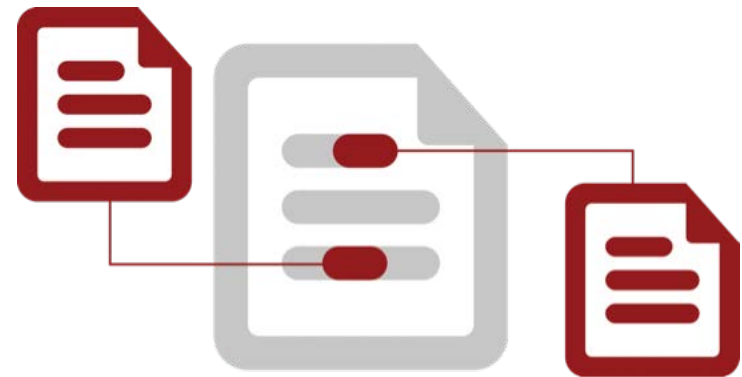

You can add document-wide notes via the Notes tab of the document details panel.

The right sidebar shows the "Notes" tab, with a text area for document-wide notes and a list of annotations. The first annotation is:

Cita

con el *Mendeley Citation Plug-In*

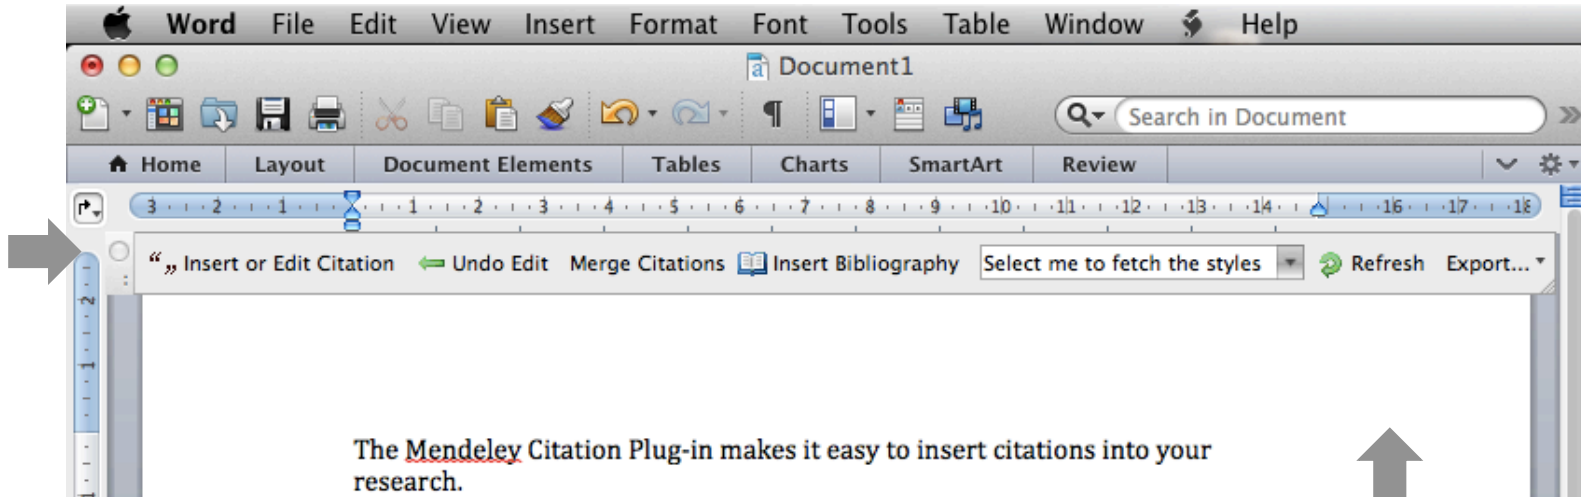

Instalación del *Citation Plug-in*

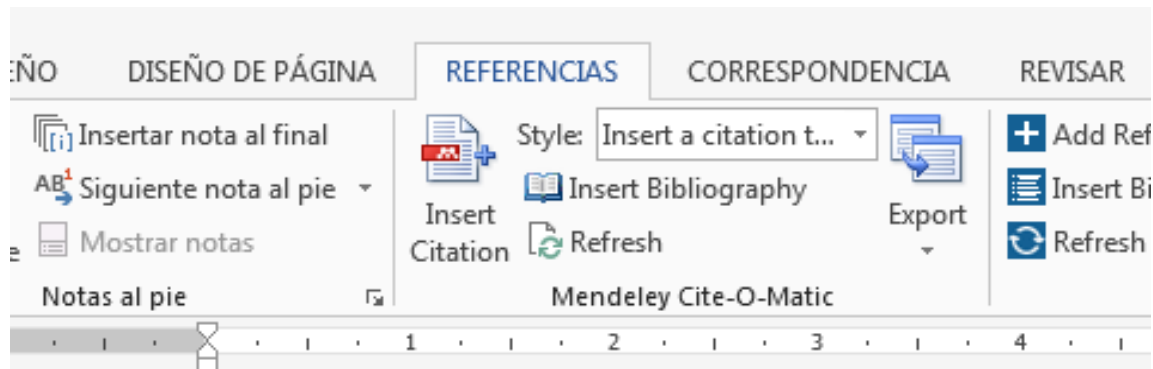

LibreOffice
The Document Foundation

La barra de citas aparece automáticamente en Word

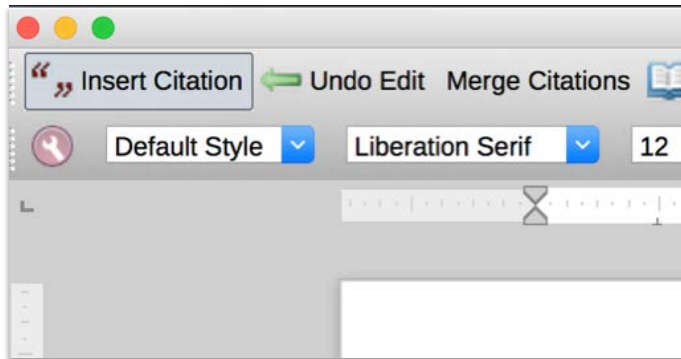

Mac / LibreOffice

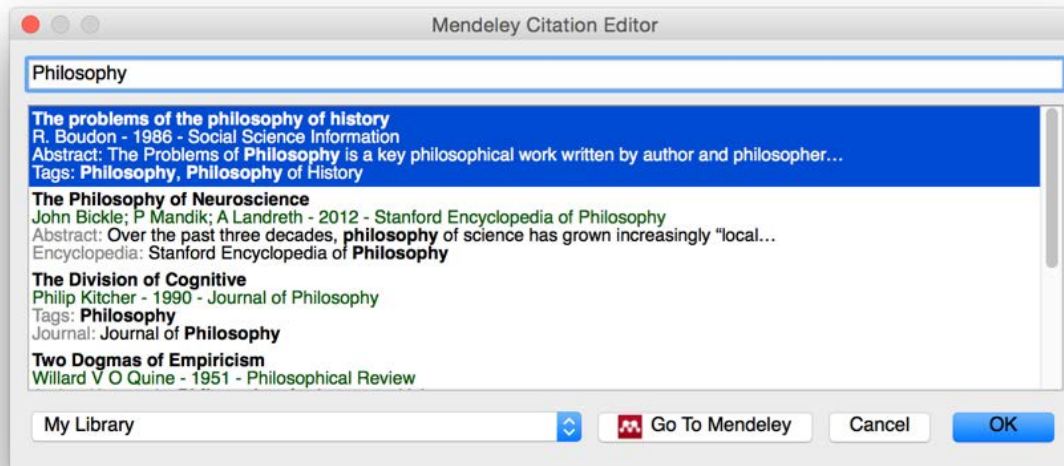

Windows

Genera citas en texto en Word

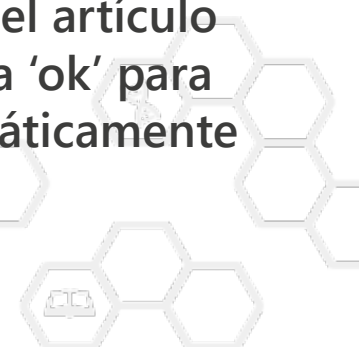

1. Pulsa 'Insert Citation'

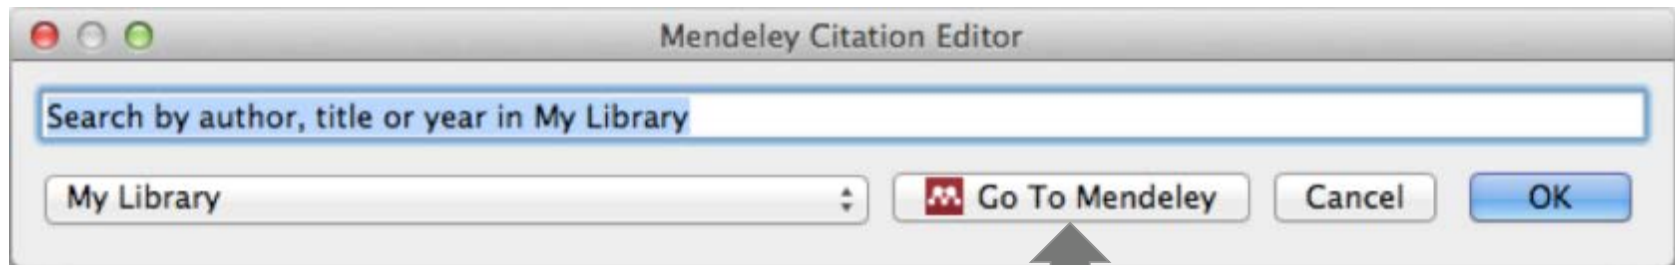

2. Busca por autor, título o año, o selecciona un documento de tu biblioteca de Mendeley

3. Selecciona el artículo o libro y pulsa 'ok' para citarlo automáticamente en Word

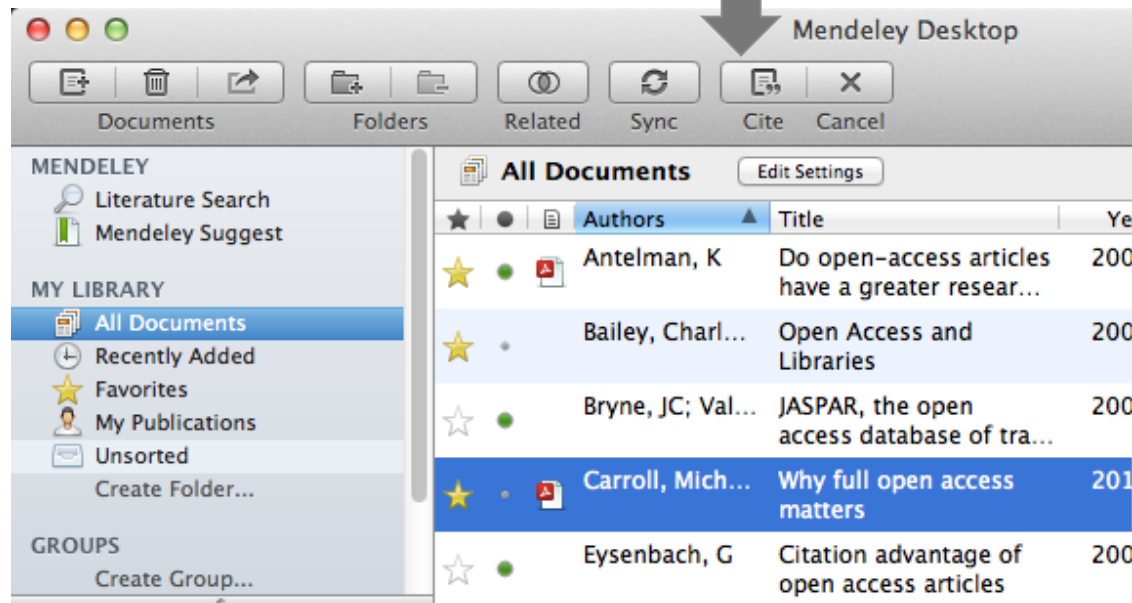

Encuentra una referencia en tu biblioteca

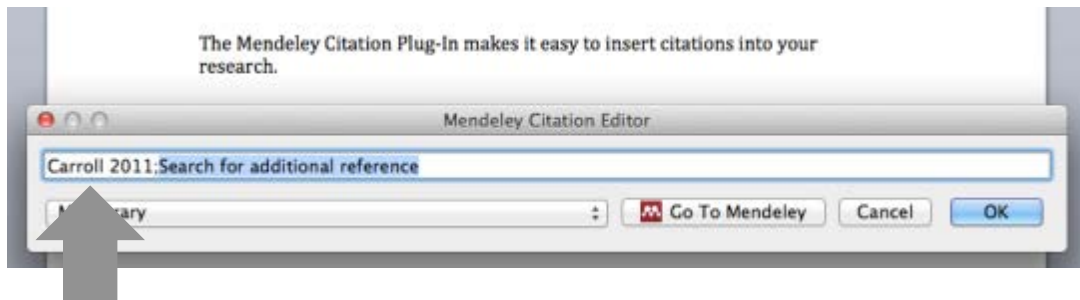

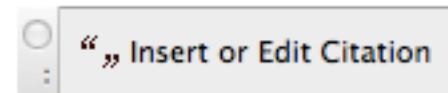

1. Pulsa "Go to Mendeley"

2. Aparece el botón 'Cite'

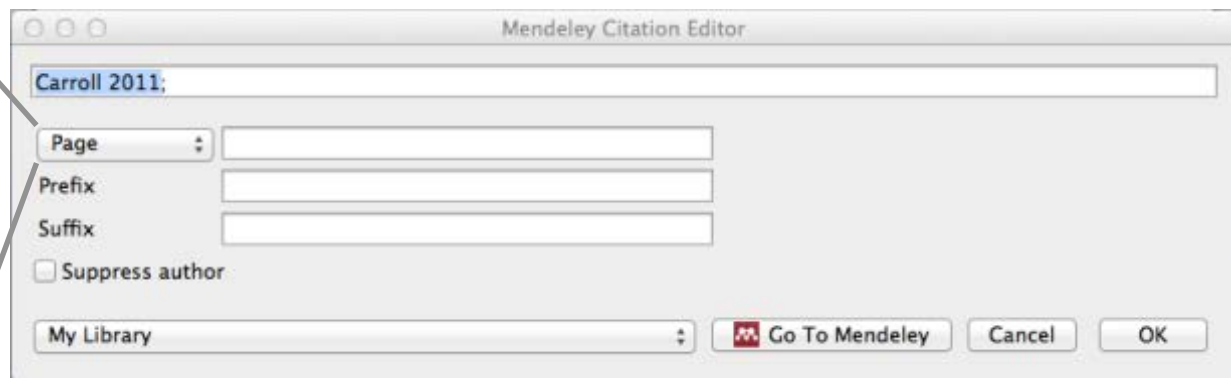

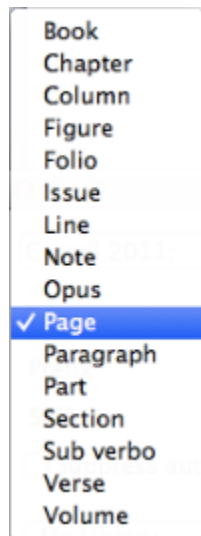

Editar y añadir información a las citas

1. Selecciona la cita y pulsa 'Insert or Edit Citation'

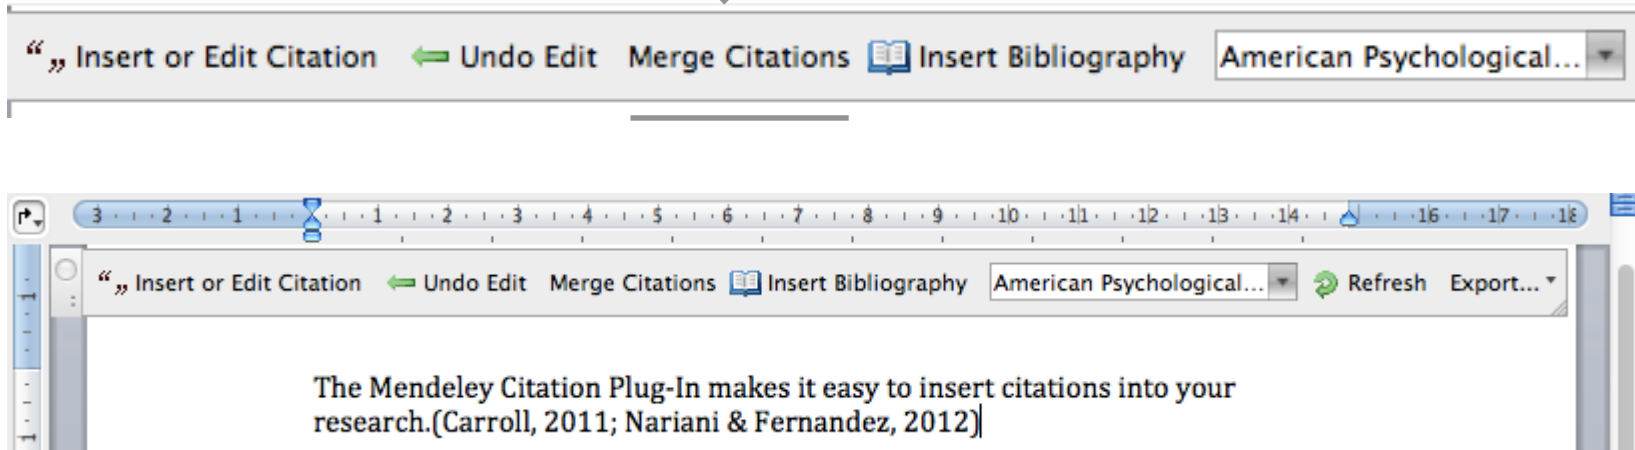

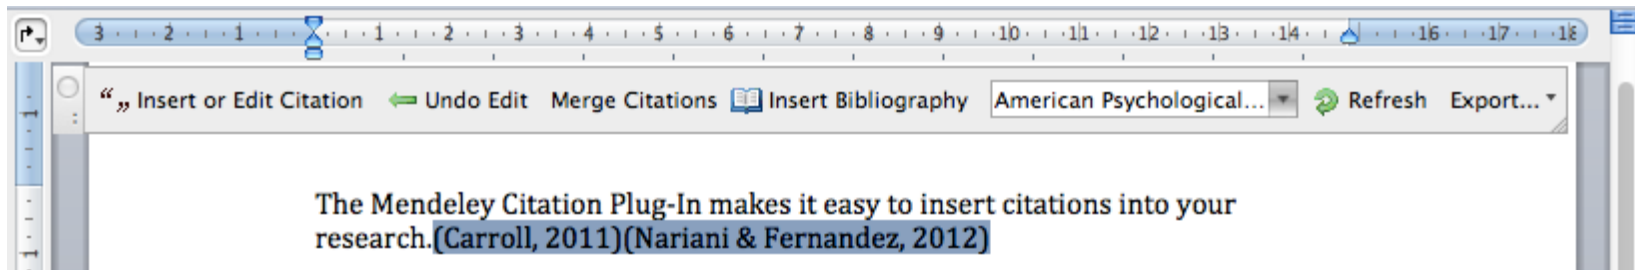

2. Pulsa en la cita (aquí: 'Carroll 2011')

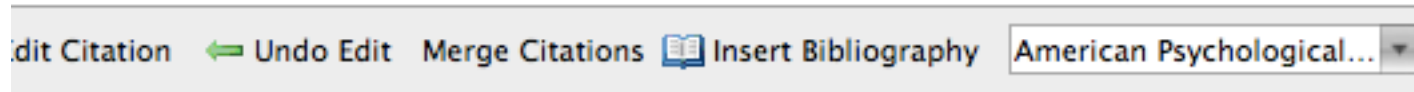

3. Utiliza el *Citation Editor* para añadir números de página, otra información u ocultar el autor

Unir citas

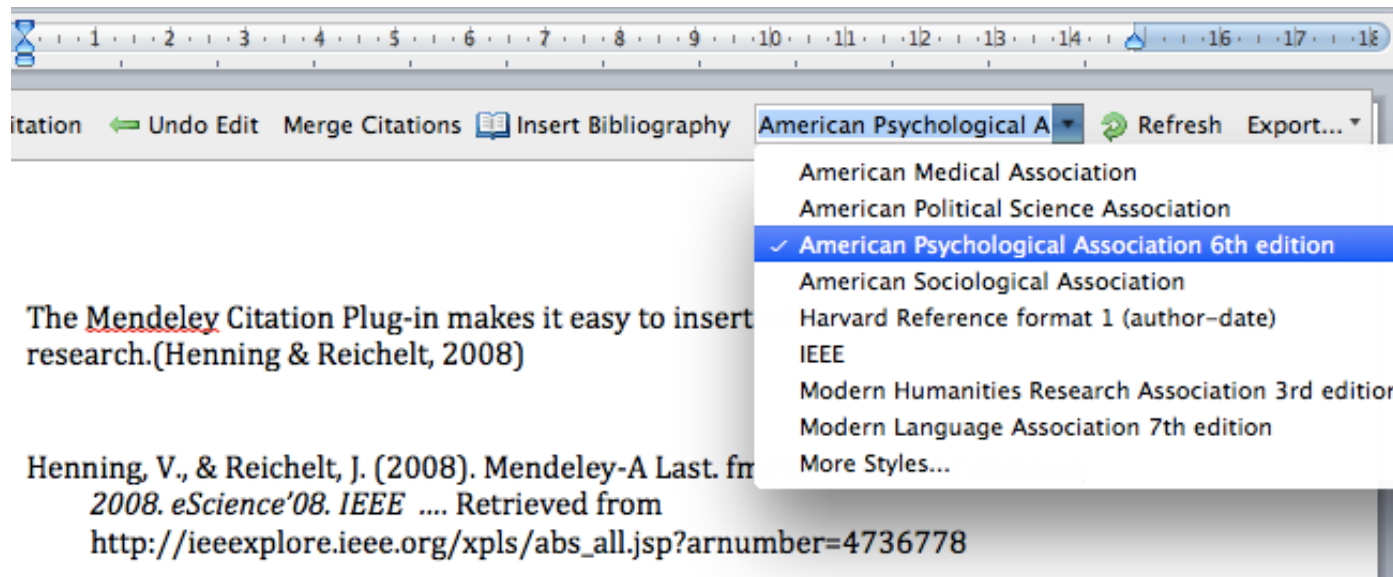

Insertar la bibliografía

1. Pulsa 'Insert Bibliography'

The Mendeley Citation Plug-in makes it easy to insert citations into your research.(Henning & Reichelt, 2008)

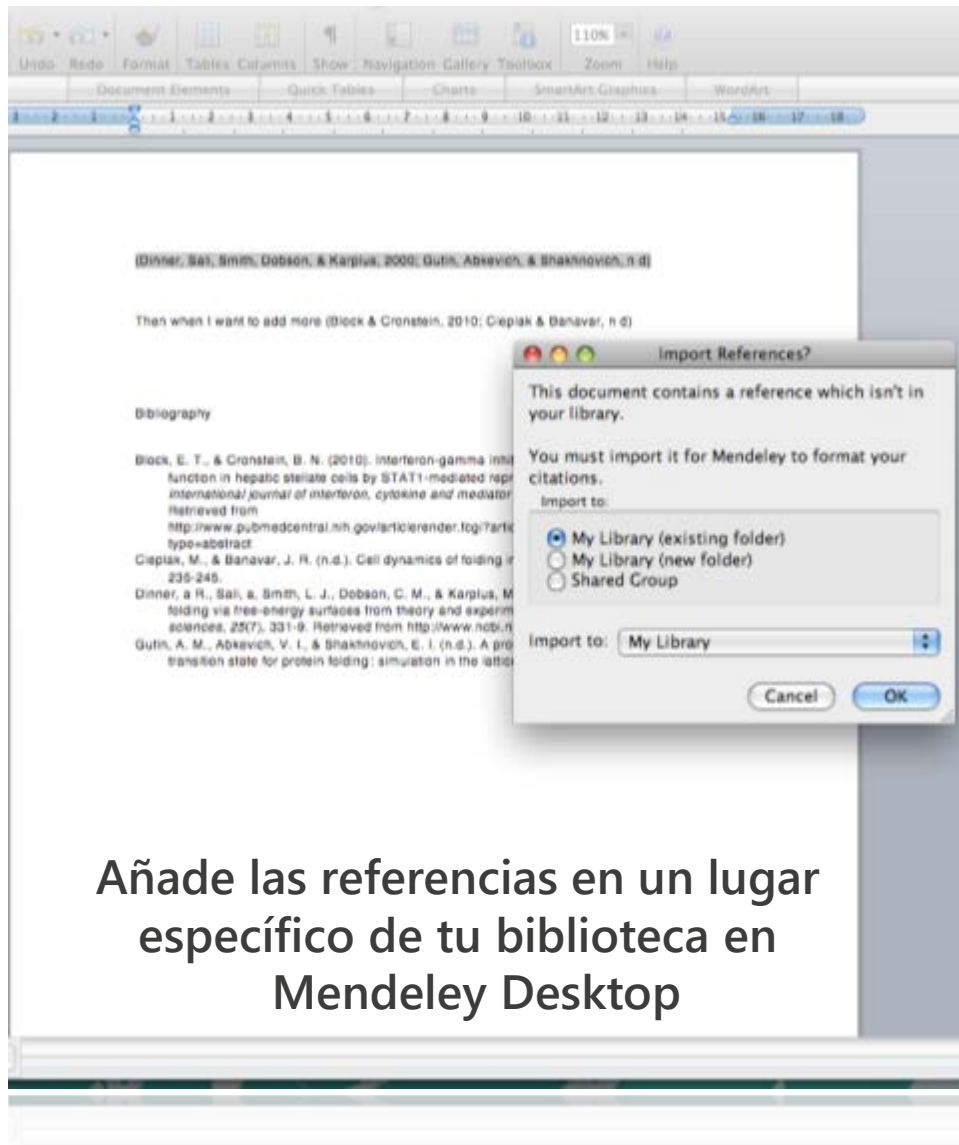

2. Elegimos el estilo de cita

3. ¡Hecho!

“Biblioteca viajera” para escribir trabajos en colaboración

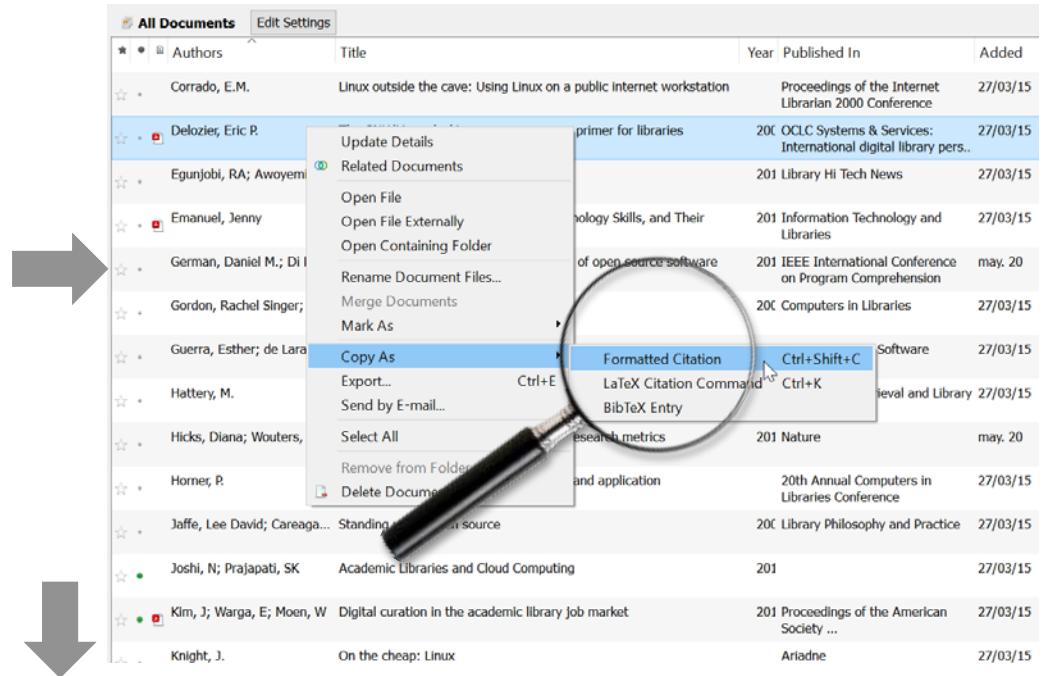

Añade las referencias en un lugar específico de tu biblioteca en Mendeley Desktop

Mendeley guarda una mini biblioteca con tu trabajo. Cuando abres un documento que contenga citas te preguntará si quieres añadirlas a tu biblioteca por si quieres estar al día de las referencias añadidas por otros miembros del grupo.

Citar en otros procesadores de texto

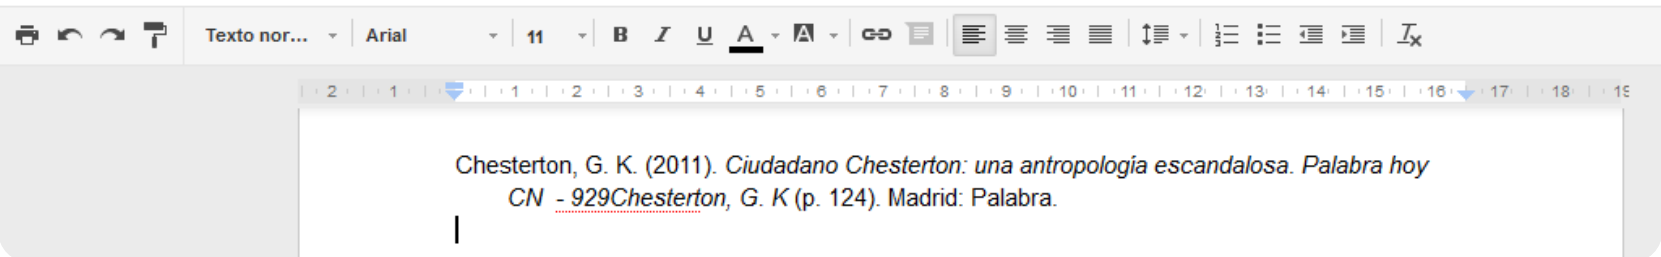

Señalamos una referencia y pulsamos el botón derecho del ratón. Seleccionamos Copy As Formatted Citation.

Luego, en el procesador de texto, sólo tenemos que pegar la cita en la posición deseada. También funciona arrastrando y soltando

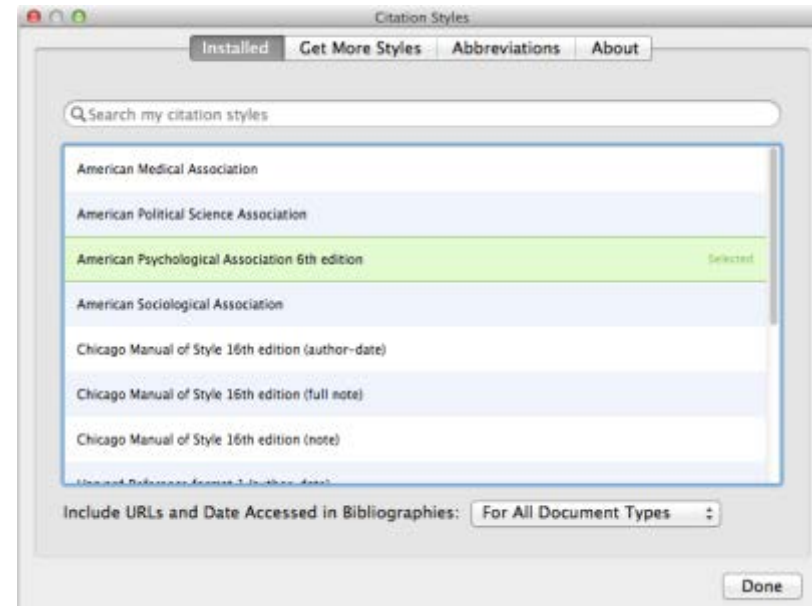

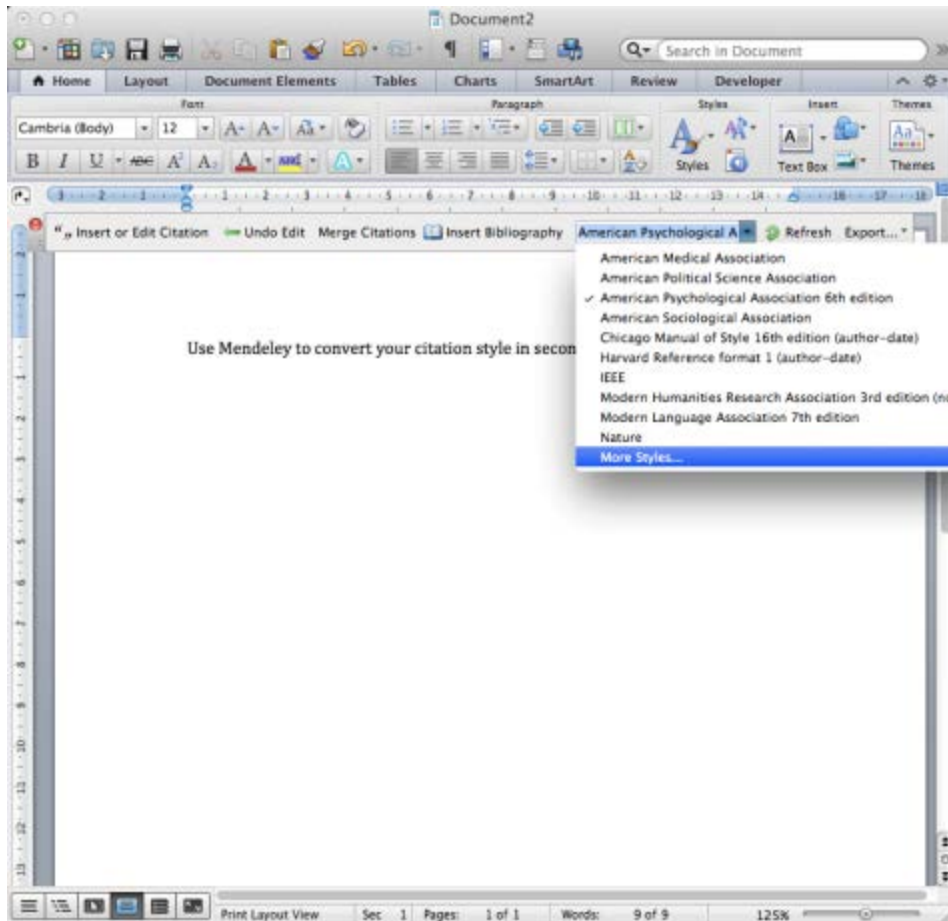

Documento sin título ☆

busca el grupo institucional de la Universidad Complutense

The screenshot shows the Mendeley web interface. At the top, there is a navigation bar with tabs: Dashboard, My Library, Papers, Groups, and People. A search bar is located to the right of the Groups tab. Below the navigation bar, the main content area displays the group page for 'Universidad Complutense de Madrid'. A large, semi-transparent success message box is overlaid on the page, indicating that the user has successfully joined the group and been upgraded to a Mendeley premium plan. A red callout box points to the 'Join this group' button. The group page itself shows a list of members and a list of papers. The success message box contains the following text:

Success!

You are now a member of this group and have automatically been upgraded to a Mendeley premium plan.

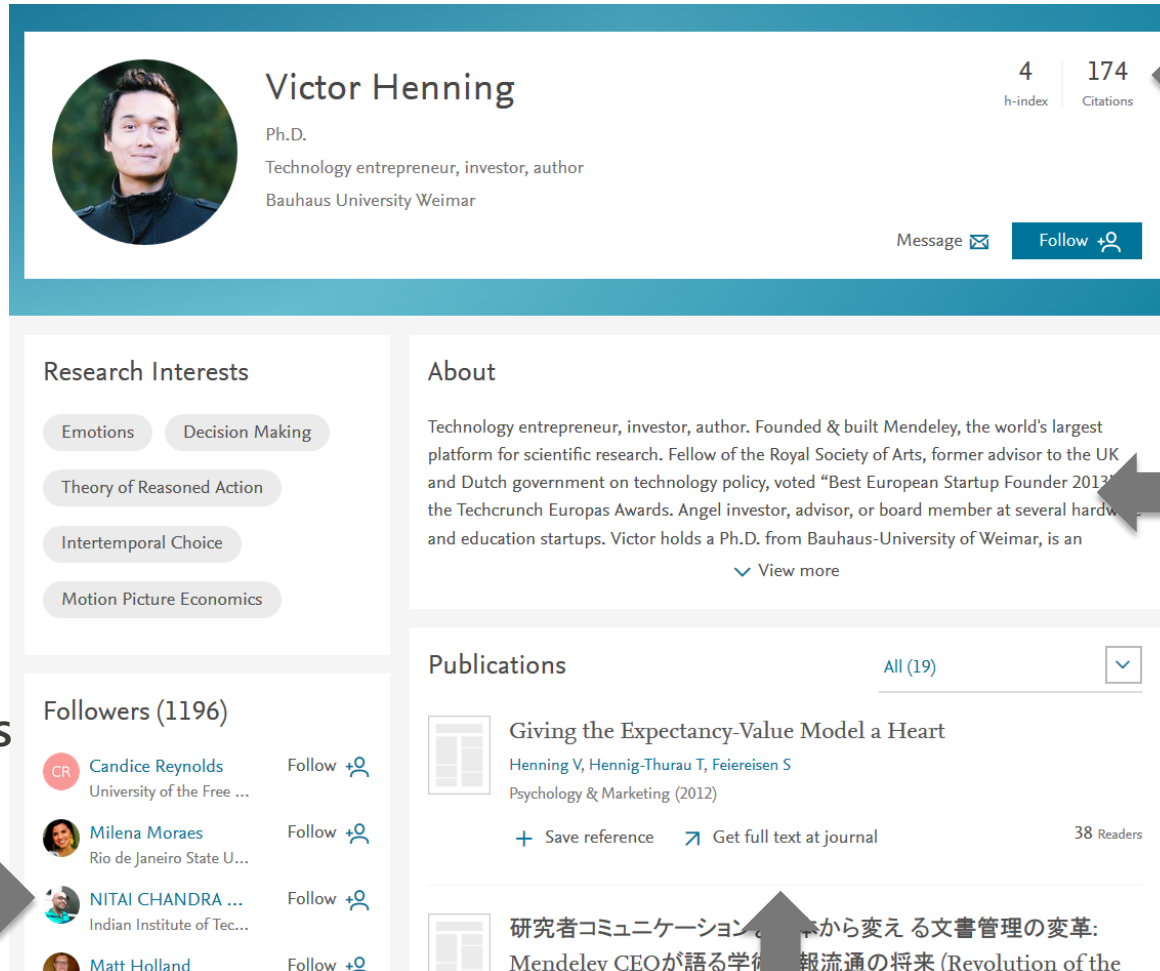

OK

The group page shows the following information:

- Group name: Universidad Complutense de Madrid
- Group description: In this group...
- Group type: Information Science
- Group size: 139 members
- Group members: A list of 139 members, including Alvaro Sanchez, Carmelo Vazquez, Thomas M. Connolly, Thomas Hainey, Elizabeth Boyle, Gavin Baxter, and Pablo Moreno-Ger.
- Group papers: A list of papers, including 'Preface: Psychology, Pedagogy, and Assessment in Serious Games' and 'Towards a low cost adaptation of educational games for...'.

Crea tu perfil de investigador

Estadísticas personalizadas sobre el uso de tu trabajo

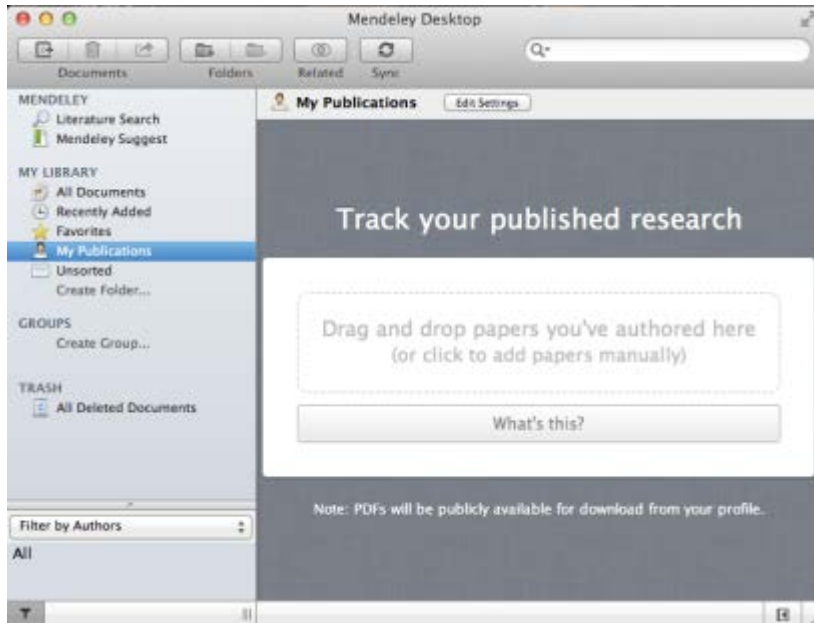

The screenshot shows a Mendeley researcher profile for Victor Henning. The profile header includes a circular profile picture, the name 'Victor Henning', his degree 'Ph.D.', and his title 'Technology entrepreneur, investor, author' at 'Bauhaus University Weimar'. To the right of the header, statistics show '4 h-index' and '174 Citations'. Below the header, there are buttons for 'Message' and 'Follow'. The main content area is divided into three sections: 'Research Interests' with tags like 'Emotions', 'Decision Making', 'Theory of Reasoned Action', 'Intertemporal Choice', and 'Motion Picture Economics'; 'About' with a bio stating he founded Mendeley and holds a Ph.D. from Bauhaus-University of Weimar; and 'Publications' with a list of works, including 'Giving the Expectancy-Value Model a Heart' and a Japanese article about the future of academic communication. A 'Followers (1196)' section on the left lists other researchers like Candice Reynolds, Milena Moraes, and NITAI CHANDRA.

Journal: *Nanoscale Research Letters*

Year: 2012

Volume: 7

Issue: 1

Pages: 161

Abstract:

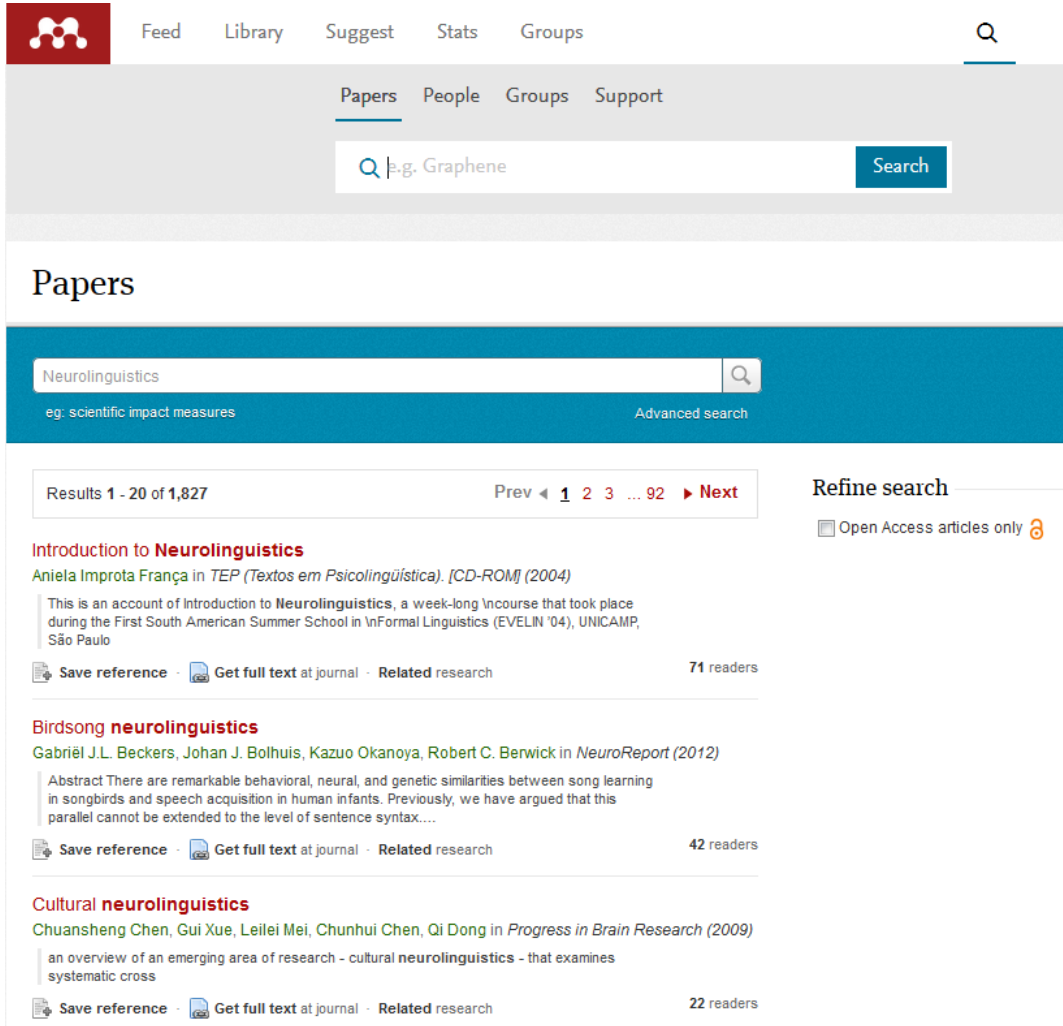

The comparison between two kinds of single-layer reduced graphene oxide (rGO) sheets, obtained by reduction of graphene oxide (GO) with the electrochemical method and hydrazine vapor reduction, referred to as E-rGO and C-rGO, respectively, is systematically studied. Although there is no morphology difference between the E-rGO and C-rGO films adsorbed on solid substrates observed by AFM, the reduction process to obtain the E-rGO and C-rGO films is quite different. In the hydrazine vapor reduction, the nitrogen element is incorporated into the obtained C-rGO film, while no additional

Abstract

Graphene is the two-dimensional (2d) building block for carbon allotropes of every other dimensionality. It can be stacked into 3d graphite, rolled into 1d nanotubes, or wrapped into 0d fullerenes. Its recent discovery in free state has finally provided the possibility to study experimentally its electronic and phonon properties. Here we show that graphene's electronic structure is uniquely captured in its Raman spectrum that clearly evolves with increasing number of layers. Raman fingerprints for single-, bi- and few-layer graphene reflect changes in the electronic structure and electron-phonon interactions and allow unambiguous, high-throughput, ...

Abstract

While heated arguments between practitioners of qualitative and quantitative research have begun to test the very integrity of the social sciences, Gary King, Robert Keohane, and Sidney Verba have produced a farsighted and timely book that promises to sharpen and strengthen a wide range of research performed in this field. These leading scholars, each representing diverse academic traditions, have developed a unified approach to valid descriptive and causal inference in qualitative research, where numerical measurement is either impossible or undesirable. Their book demonstrates that the same logic of inference underlies both good quantitative and good qualitative research designs, and their approach applies equally to each. Providing precepts intended to stimulate and discipline thought, the authors explore issues related to framing research questions, measuring the accuracy of data and uncertainty of empirical inferences, discovering causal effects, and generally improving qualitative research. Among the specific topics they address are interpretation and inference, comparative case studies, constructing causal theories, dependent and explanatory variables, the limits of random selection, selection bias,

Mendeley Open API

Developer Portal

The screenshot shows the Mendeley API Developer Portal in a web browser. The browser's address bar displays `dev.mendeley.com/slate/@attributes`. The page features a sidebar on the left with the Mendeley logo and a search bar. Below the search bar, there is a list of navigation links: Introduction, Authentication, Versioning, CORS, Pagination, Documents, Attributes (highlighted in red), Retrieving a single document, Retrieving documents, Creating a document, Updating documents, Deleting documents and Trash, Catalog Documents, Trash, Files, Annotations, Groups, Folders, Profiles, Errors, and a link to Sign Up for a Developer Key. The main content area is titled "Attributes" and contains a table with columns for Parameter, Type, and Description. The table lists various attributes such as id, type, month, year, day, source, title, revision, abstract, and authors. To the right of the table, there is a section titled "cURL" with a sub-section "Example JSON" showing a sample JSON object representing a document.

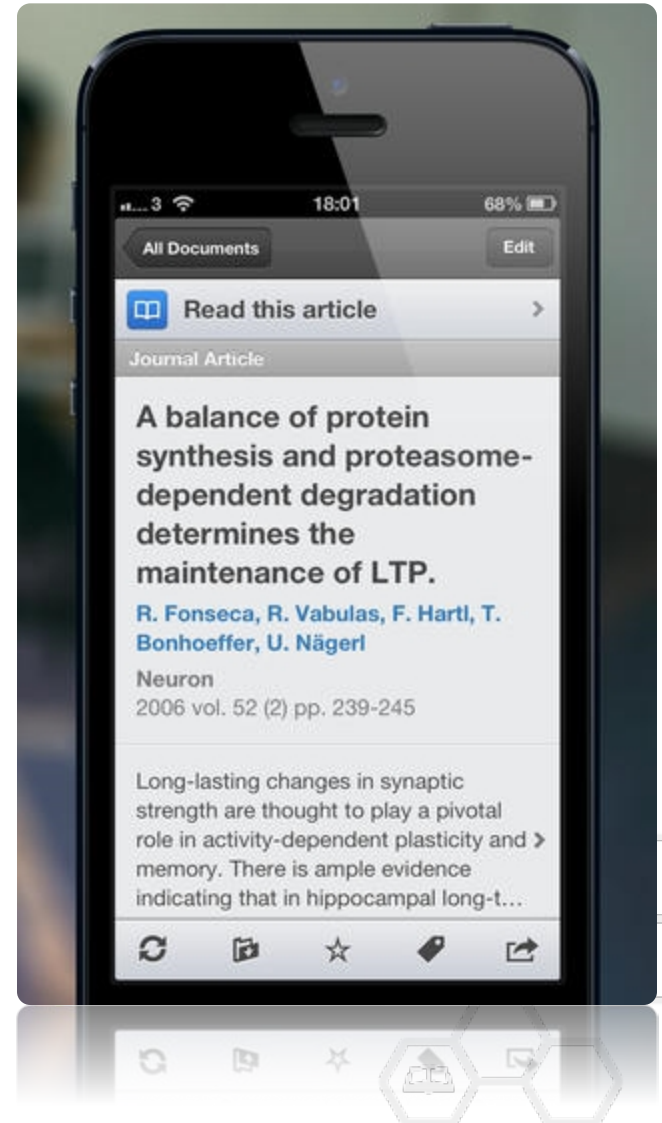

Parameter	Type	Description
id	string	Identifier (UUID) of the document. This identifier is set by the server on create and it cannot be modified.
type	string	The type of the document. Supported types: journal, book, generic, book_section, conference_proceedings, working_paper, report, web_page, thesis, magazine_article, statute, patent, newspaper_article, computer_program, hearing, television_broadcast, encyclopedia_article, case, film, bill.
month	integer	Month in which the document was issued/published. This should be an integer between 1 and 12.
year	integer	Year in which the document was issued/published.
day	integer	Day in which the document was issued/published. This should be an integer between 1 and 31.
source	string	Publication outlet, i.e. where the document was published.
title	string	Title of the document. This is a required field.
revision	string	Number identifying the item (e.g. a report number).
abstract	string	Brief summary of the document.
authors	array	List of authors of the document. This is a collection (array) of person objects, which include first_name and last_name (strings).
