# Gestores bibliográficos

## Gestores bibliográficos

Los gestores bibliográficos son herramientas que recogen las referencias bibliográficas de las bases de datos de investigación (catálogos de bibliotecas, índices, bases de datos de revistas científicas, etc.), y le permiten organizar las citas y la bibliografía para sus proyectos.

<https://biblioteca.ucm.es/gestoresbibliograficos>

# Mendeley

## ¿Por qué Mendeley? Algunos motivos

- Gratuito (pero con gran soporte detrás)
- Multiplataforma (Windows / Mac / Linux)
- Versión Web / escritorio
- App Android / iOS
- Altmetrics
- Acuerdo institucional: Capacidad de almacenamiento (100 gb)
- Recuperación Google Académico (My publications)
- Uso intuitivo / diseño moderno
- Características red social / empleo / datos de investigación

<https://www.mendeley.com>

## Pasos para trabajar con Mendeley

**1**

Abrir cuenta en Mendeley

**2**

Instalar Mendeley Desktop

**3**

Instalar plugin navegador

- Mendeley web importer

**4**

Instalar plugin Word

- Mendeley Cite-O-Matic

1

Abrir cuenta en Mendeley

## Empezar con Mendeley

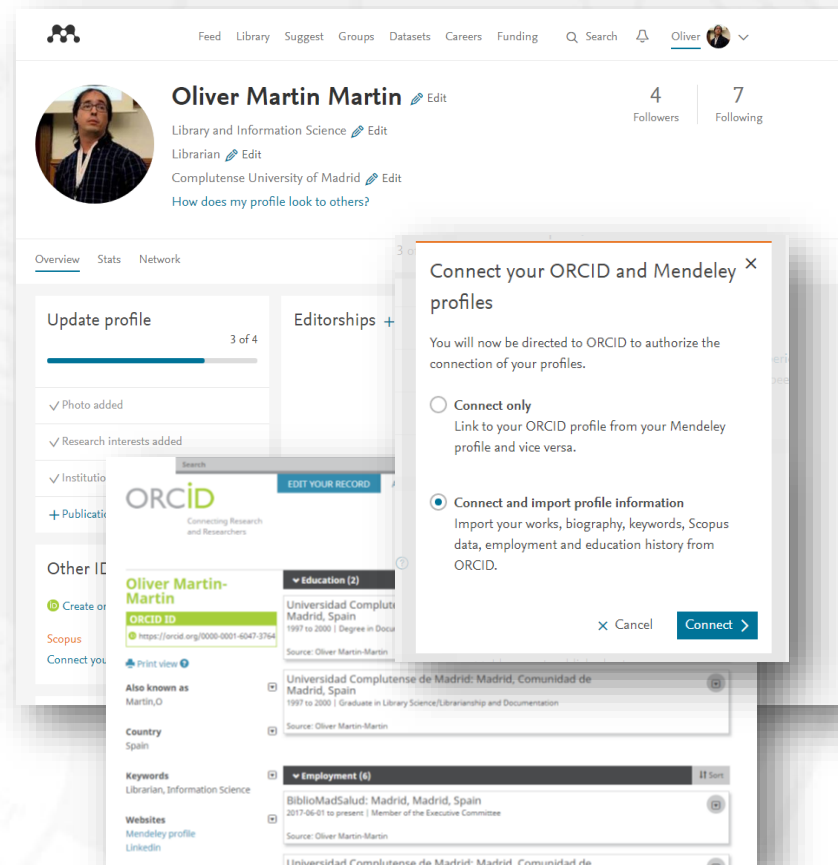

- En primer lugar accederemos a Mendeley (<https://www.mendeley.com/>) y crearemos una cuenta con nuestro correo institucional (ucm.es) lo que nos dará algunos servicios añadidos:  
<https://biblioteca.ucm.es/mendeley-institucional>
- Buscaremos y nos uniremos al grupo de la Universidad Complutense de Madrid

The screenshot shows the Mendeley Groups search results page. At the top, it says 'Groups' and 'In this catalog: 184,878 public groups'. Below that is a search bar containing 'Universidad Complutense de Madrid' and a magnifying glass icon. Under the search bar, it says 'eg: Social networks'. Below the search bar, there is a pagination bar showing 'Groups 1 - 20 of 11,442' and navigation buttons: 'Prev', '1', '2', '3', '...', '573', and 'Next'. Below the pagination bar, there is a list of groups. The first group is 'Universidad Complutense de Madrid' with a small logo to its left. To the right of the group name is a grey button labeled 'INSTITUTION'. Below the group name, there is a description: 'Cuenta institucional de la Universidad Complutense que permite disponer de más espacio personal (5 GB) y compartido (20 GB), la creación de un número...'

## Empezar con Mendeley: perfil

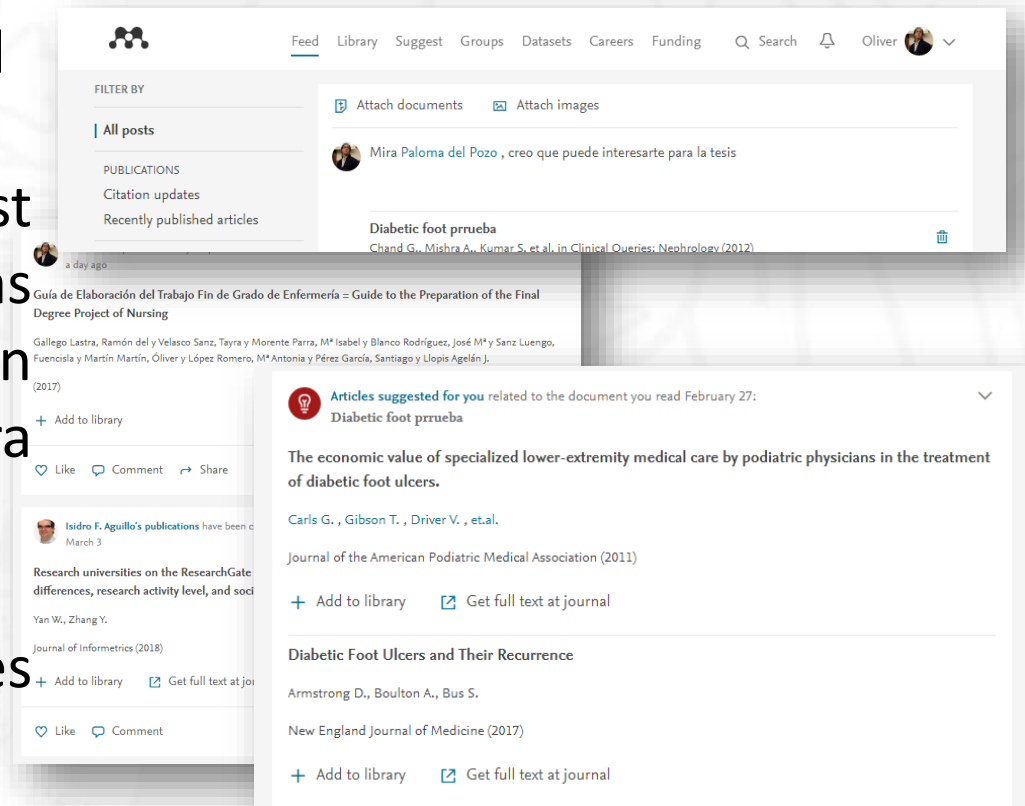

- Completaremos nuestro perfil (en inglés) con los datos más relevantes y vincularemos nuestros identificadores
- Podemos sólo enlazar los perfiles o vincularlos e importar nuestra información y referencias

The screenshot displays the Mendeley profile page for Oliver Martin Martin. The profile includes a photo, name, and affiliations: Library and Information Science, Librarian, and Complutense University of Madrid. A progress bar for 'Update profile' shows 3 of 4 steps completed. A dialog box titled 'Connect your ORCID and Mendeley profiles' is overlaid, offering two options: 'Connect only' (linking profiles) and 'Connect and import profile information' (importing works, biography, keywords, Scopus data, employment, and education history). The 'Connect and import profile information' option is selected. A search for 'ORCID' is also visible, showing results for Oliver Martin-Martin with an ORCID ID and associated education and employment records.

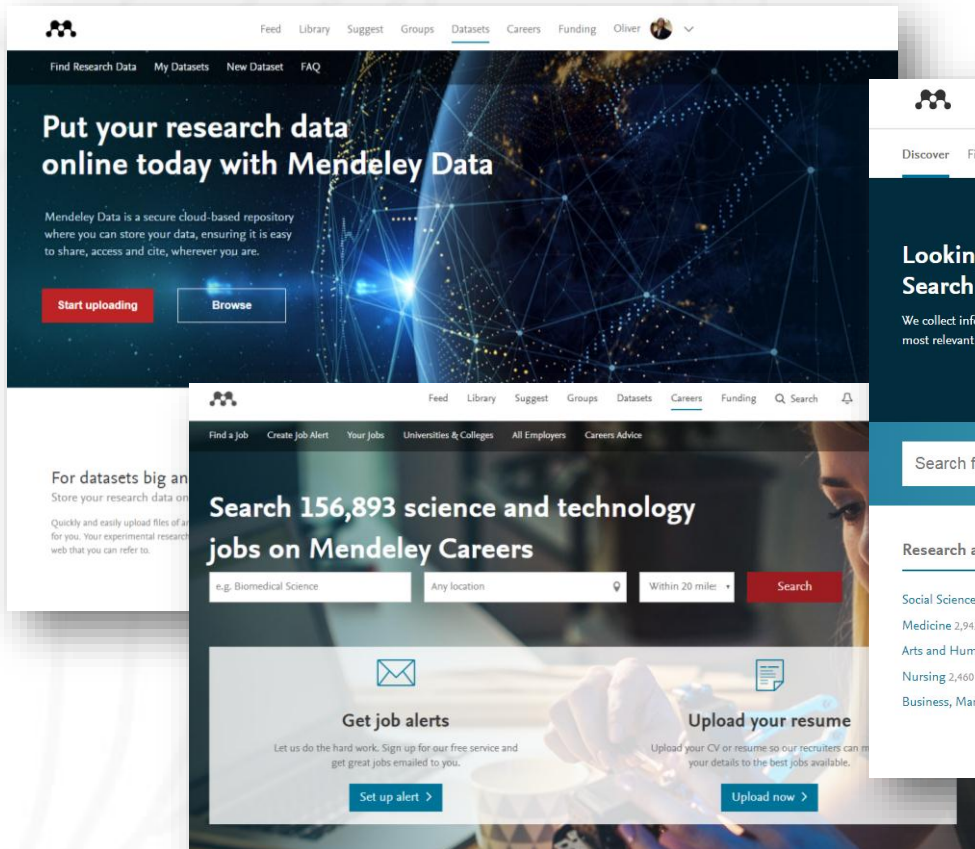

# Empezar con Mendeley: Feed

- Componente de red social
- Podemos publicar post etiquetando a personas (@), adjuntando algún documento de nuestra biblioteca...
- Nos muestra interacciones y sugerencias

The screenshot displays the Mendeley Feed interface. At the top, there are navigation tabs: Feed, Library, Suggest, Groups, Datasets, Careers, Funding, Search, and a user profile for Oliver. Below the navigation, there are options to 'Attach documents' and 'Attach images'. A post by Mira Paloma del Pozo is visible, mentioning 'Diabetic foot prueba' and a document by Chand G., Mishra A., Kumar S. et al. in Clinical Queries: Nephrology (2012). The interface also shows a sidebar with 'Articles suggested for you' related to the document, including 'The economic value of specialized lower-extremity medical care by podiatric physicians in the treatment of diabetic foot ulcers' by Carls G., Gibson T., Driver V., et al. in the Journal of the American Podiatric Medical Association (2011), and 'Diabetic Foot Ulcers and Their Recurrence' by Armstrong D., Boulton A., Bus S. in the New England Journal of Medicine (2017). The main feed area shows a post by Isidro F. Aguillo's publications with a document 'Guía de Elaboración del Trabajo Fin de Grado de Enfermería = Guide to the Preparation of the Final Degree Project of Nursing' by Gallego Lastra, Ramón del y Velasco Sanz, Tayra y Morente Parra, Mª Isabel y Blanco Rodríguez, José Mª y Sanz Luengo, Fuencisla y Martín Martín, Óliver y López Romero, Mª Antonia y Pérez García, Santiago y Llopis Agelán. (2017). The post includes options to 'Add to library', 'Like', 'Comment', and 'Share'.

## Mendeley Web Importer

## Importar referencias

- Mendeley Web importer es una extensión para Chrome y Firefox que permite importar fácilmente la información directamente desde algunos recursos.
- Los usuarios de Safari o Explorer pueden seguir las siguientes instrucciones:

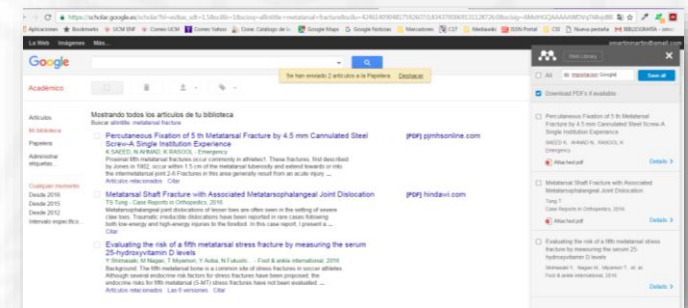

<https://www.mendeley.com/import/>

## Importar referencias (Google académico)

- Para importar referencias desde Google Académico, iremos guardando aquellos documentos que nos interesen en nuestra biblioteca (previo ingreso de cuenta en Google).
- Accederemos a la biblioteca de Google Académico y pincharemos en el botón Mendeley Web importer.

Salter-Harris type II metacarpal and metatarsal fracture in three foals  
MDK Bregger, AE Fürst, PR Kircher... - Veterinary and ..., 2016 - vcot.schattauer.de  
Objectives: To describe minimally-invasive lag screw osteosynthesis combined with external coaptation for the treatment of Salter-Harris type II third metacarpal and third metatarsal bone fractures. Methods: Three foals aged two weeks to four months with a Salter-Harris ...  
[Las 2 versiones](#) [Citar](#) [Guardar](#)

## Importar referencias (Google académico)

- Seleccionaremos aquellos documentos que nos interesen y le diremos en qué carpeta existente queremos guardarlo, si no lo hacemos nos los importará en todos los documentos y podremos organizarlo posteriormente.
- Si los documentos tienen enlace al texto completo nos importará el pdf a Mendeley.

## Importar referencias (Google académico)

- Comprobaremos que el documento se ha importado correctamente y revisaremos y completaremos los metadatos.

Independientemente del origen de los datos, es muy importante que hagamos una **verificación completa de los metadatos con el documento original** para asegurarnos una correcta salida posterior de la información.

**Percutaneous Fixation of 5th Metatarsal Fracture by 4.5 mm Cannulated Steel Screw-A Single Institution Experience**

Authors: K. SAEED, N. AHMAD, K. RASOOL

Journal: *Emergency*

Date Accessed: 2014-11-23

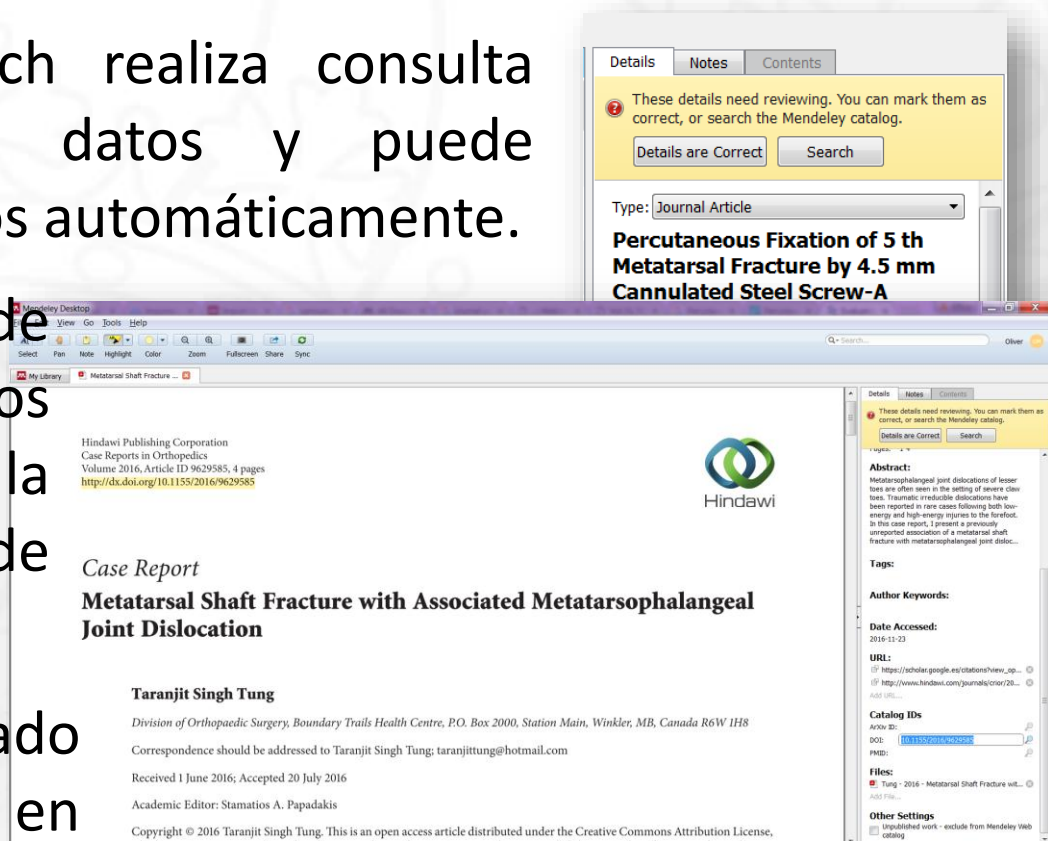

URL: [https://scholar.google.es/citations/view\\_op...](https://scholar.google.es/citations/view_op...)

Catalog IDs: ANWV ID: enp2

Abstract: This descriptive case series was carried out to determine bone union after percutaneous fixation of proximal 5th metatarsal fracture by 4.5 mm cannulated steel screw. Using consecutive samplings, all patients of either sex with age ranging from 16 to 60 years with isolated closed fracture of Fifth Metatarsal Fractures presenting within 72 hours of fracture were included. The fracture was defined as disruption of continuity of base and shaft of fifth metatarsal and determined by plain x-ray foot. Patients having previous surgery or intervention for

## Importar referencias (Google académico)

- Mediante el botón search realiza consulta sobre otras bases de datos y puede completarnos algunos datos automáticamente.
- Si el documento dispone de DOI, lo añadiremos a los metadatos y lanzaremos la búsqueda (*Search*) de nuevo.
- Cuando hayamos completado los datos pincharemos en *Details are Correct*.

## Importar referencias (PubMed)

- Podremos trabajar con Mendeley Web Importer directamente desde la pantalla de resultados, o hacer una selección y guardarla temporalmente en “clipboard” desde donde la importaremos.
- Si los documentos tienen enlace al texto completo no lo capturará y deberemos añadirlo posteriormente.
- A la hora de seleccionar los documentos puede mostrarnos más de los seleccionados, deberemos comprobar que seleccionamos los que realmente nos interesan.

## Importar referencias (ScienceDirect)

- Desde ScienceDirect bastará seleccionar desde Mendeley Web importer aquellos documentos de los resultados que queremos importar.
- Nos guardará al mismo tiempo el fichero pdf de los documentos.

The screenshot shows the ScienceDirect website interface. The search bar contains 'diabetic foot AND charcot'. The search results page displays a list of articles, including 'Current concepts of Charcot foot in diabetic patients', 'A rapid decline in corneal small fibers and occurrence of foot ulceration and Charcot foot', 'A study of extracellular vesicle concentration in active diabetic Charcot neuroarthropathy', and 'Osteotomy and Medial Plantar Artery Flap Reconstruction for Charcot Foot Ulceration Involving the Midfoot'. A Mendeley Web Library import dialog is open on the right side of the screen, showing a list of selected articles and a progress bar indicating that 51% of the files are being saved.

## Introducir referencias manualmente

- Mendeley permite también la introducción manual de entradas si no disponemos de una fuente de captura.
- Entraremos en la opción del menú File > Add Entry Manually e introduciremos los datos del documento en cuestión.

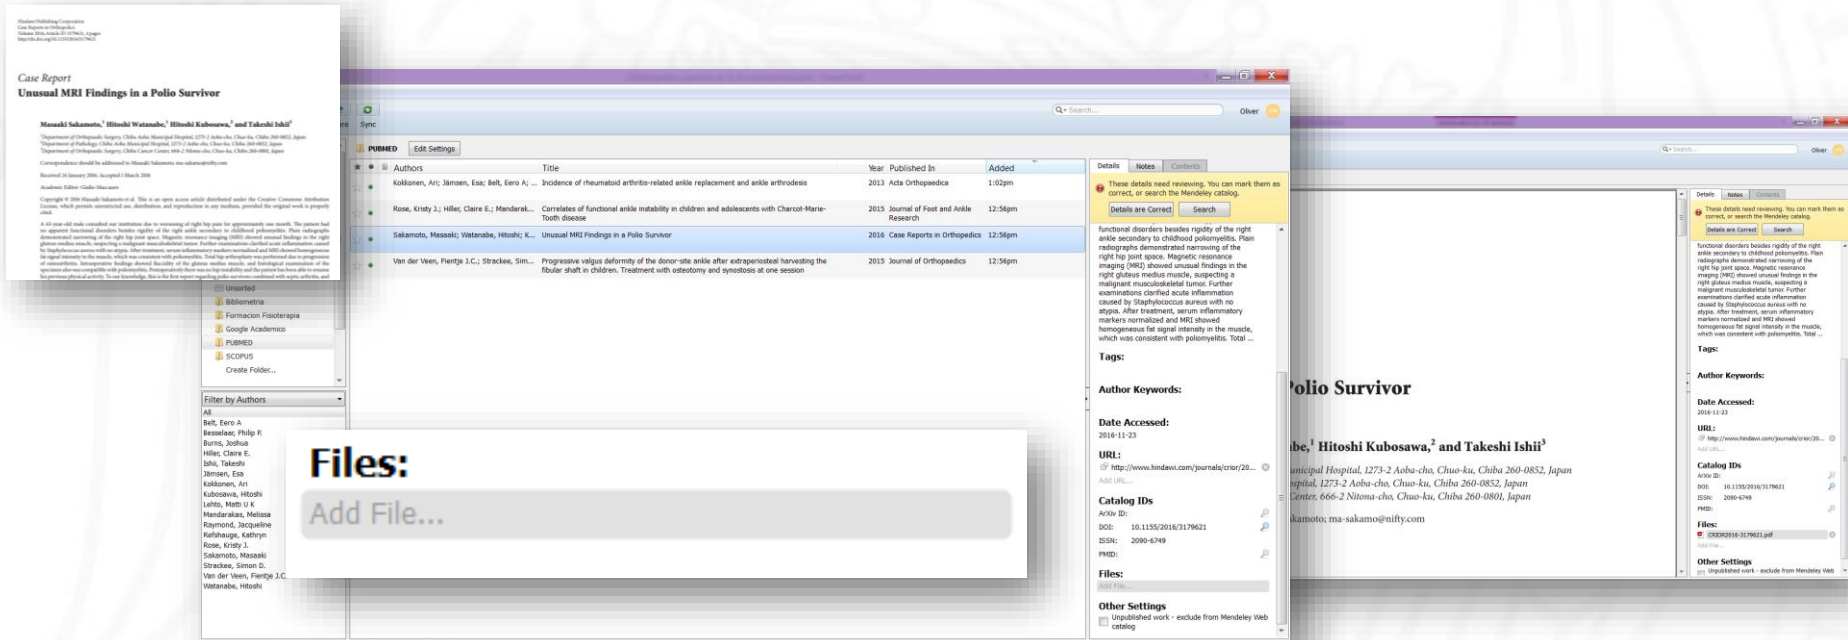

## Capturar referencia desde un PDF (internet)

- En algunos casos, al visualizar un archivo pdf desde el propio navegador, podremos capturar la información de sus metadatos junto con el propio fichero mediante Mendeley Web Importer

The screenshot shows a web browser window with the address bar displaying the URL: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4812215/pdf/CRIOR2016-3179621.pdf>. The browser's address bar and tabs are visible at the top. The main content area displays a PDF document from Hindawi Publishing Corporation, titled "Case Report Unusual MRI Findings in a Polio Survivor". The authors listed are Masaaki Sakamoto, Hitoshi Watanabe, Hitoshi Kubosawa, and Takeshi Ishii. The document includes their affiliations, contact information, and a short abstract. On the right side of the browser window, the Mendeley Web Library interface is open, showing a "Web Library" window with a "Save" button and a "Download PDFs if available" checkbox. The library entry for the article is visible, including the title, authors, and a brief description of the case.

# Añadir fichero pdf a una referencia

- Para añadir un fichero pdf a una referencia existente en nuestra biblioteca, pincharemos sobre la opción Add files en el área de los metadatos de la referencia y seleccionaremos el fichero pdf

The screenshot shows a library catalog interface with a reference entry for 'Unusual MRI Findings in a Polio Survivor' and a 'Files' dialog box for adding a PDF file.

**Reference Entry:**

Add File...

**Reference Details:**

**Title:** Unusual MRI Findings in a Polio Survivor

**Author Keywords:** functional disorders besides rigidity of the right ankle secondary to childhood poliomyelitis. Plain radiographs demonstrated narrowing of the right hip joint space. Magnetic resonance imaging (MRI) showed unusual findings in the right gluteus medius muscle, suggesting a malignant musculoskeletal tumor. Further examination revealed acute inflammation caused by Staphylococcus aureus with no abscess. After treatment, serum inflammatory markers normalized and MRI showed homogeneous fat signal intensity in the muscle, which was consistent with poliomyelitis. Total ...

## Organizar PDFs

- Desde la opción *Tools* > *Options* > *File organizer* podemos indicar dónde y cómo queremos que nos almacene dentro de nuestro equipo los ficheros pdf asociados a las referencias.

## Buscar y filtrar

- Para poder localizar nuestros documentos, además de la búsqueda por carpeta, disponemos de un buscador por diferentes campos y una herramienta de filtros

The image shows a screenshot of a search interface. On the left, there is a sidebar with a 'Filter by' menu. The menu options are: Filter by Authors, Filter by Author Keywords, Filter by Authors, Filter by My Tags, and Filter by Publications. The 'Filter by Publications' option is selected, and a list of authors is displayed below it: Hiller, Claire E., Ishii, Takeshi, Jämsen, Esa, Kokkonen, Ari, Kubosawa, Hitoshi, Lehto, Matti U K, Mandarakas, Melissa, Raymond, Jacqueline, Refshauge, Kathryn, Rose, Kristy J., Sakamoto, Masaaki, Strackee, Simon D., Van der Veen, Fientje J.C., and Watanabe Hitoshi. The main search results area shows a search for 'ankle' in 'PUBMED'. The search results list several articles, including 'Incidence of rheumatoid arthritis-related ankle replacement and ankle arthrodesis', 'Correlates of functional ankle instability in children and adolescents with Charcot-Marie-Tooth disease', 'Progressive valgus deformity of the donor-site ankle after extraperiosteal harvesting the fibular shaft in children. Treatment with', and 'Unusual MRI Findings in a Polo Survivor'. A search filter dropdown is open, showing options: Authors, Titles, Publication Names, Year, and Notes. The 'Titles' option is selected. Another search filter dropdown is also visible, showing the same options, with 'Titles' selected.

# Trabajar con los PDF

## Trabajar con el PDF

- Si tenemos asociado el archivo pdf del documento podremos subrayarlo y añadir notas al mismo.
- Las notas podrán compartirse con los distintos miembros del grupo.

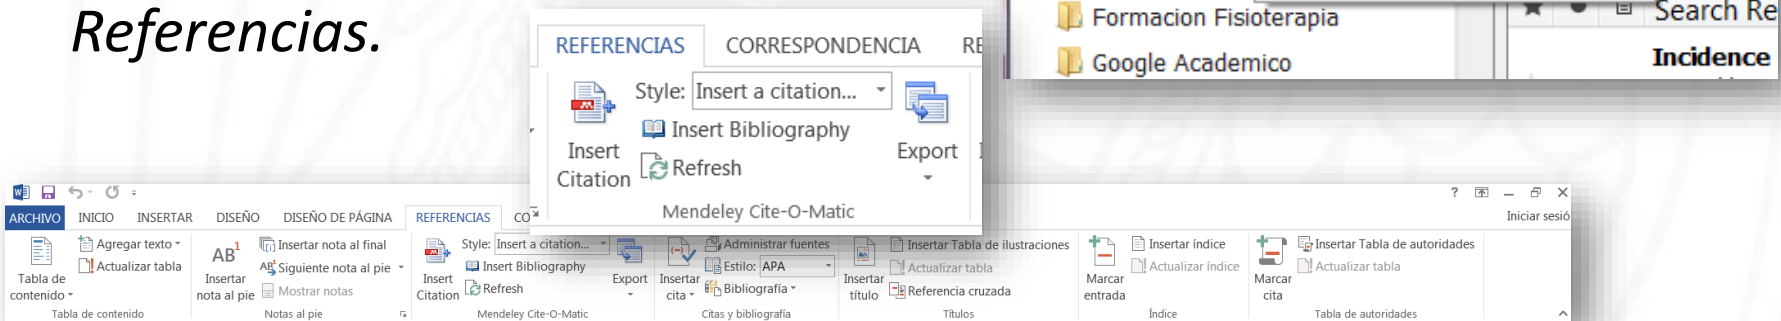

4

# Plugin de Word

(Mendeley Cite-o-matic)

## Insertar citas y bibliografía

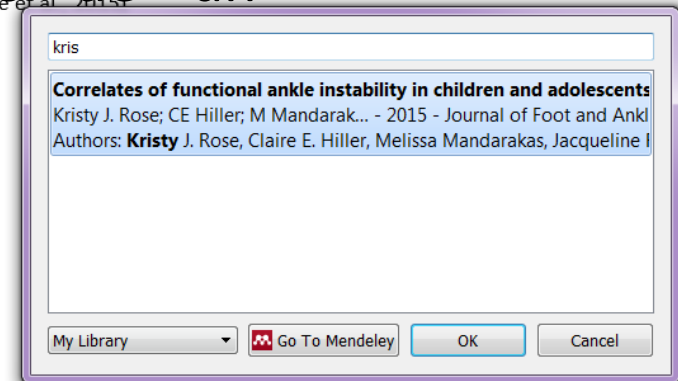

- Para trabajar con citas y bibliografías es necesario instalar un *plug-in* para Word (Mendeley Cite-O-Matic).
- A partir de ese momento podremos trabajar desde Word a través de las herramientas de la pestaña *Referencias*.

## Insertar citas

- Para insertar una cita nos posicionaremos en el lugar adecuado del texto y pincharemos en *Insert Citation*.
- Buscaremos el documento que queremos citar.
- Nos insertará la cita según el estilo que tengamos definido.
- Si la cita hace referencia a más de un documento los iremos añadiendo.
- Las citas puede editarse, por ejemplo para colocarlas como superíndice

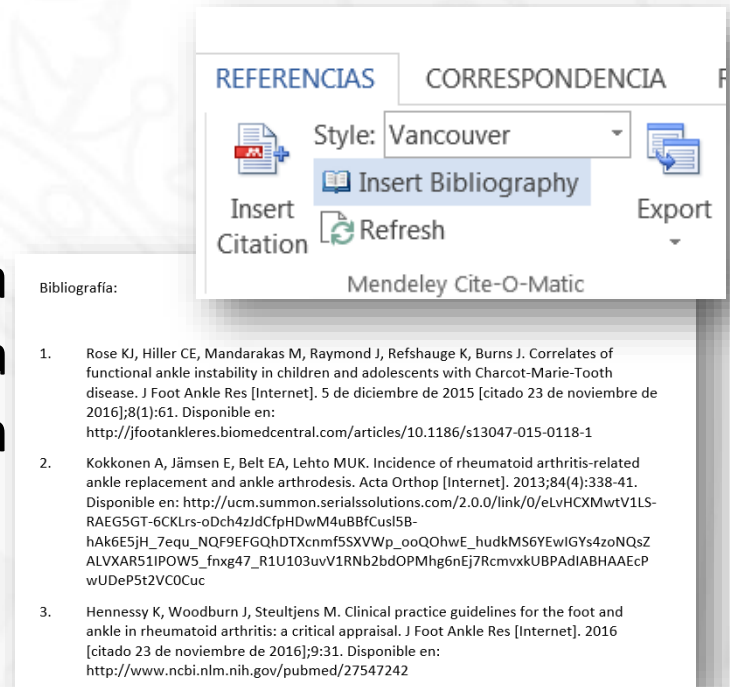

autores <sup>(2,3)</sup>

## Insertar bibliografía

- Para generar la bibliografía final, nos posicionaremos en el lugar donde queramos que aparezca y pincharemos en la opción *Insert bibliography*.
- Podremos realizar los cambios que necesitemos sobre las referencias.
- Con el botón *Refresh* volverá a generarnos la bibliografía completa con los datos que tengamos en Mendeley.

# Trabajar con grupos

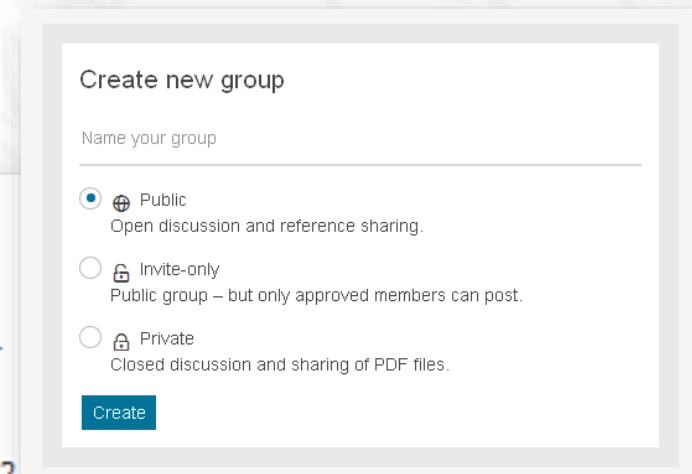

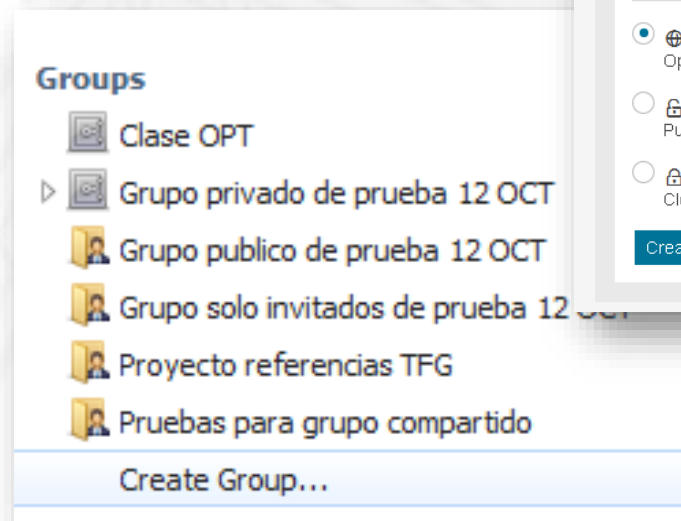

## Grupos

- Mendeley permite crear grupos de usuarios para compartir referencias, y en algunos casos documentos.
- En algunos casos será necesario que el administrador (creador) invite al resto de participantes.
- Los grupos podrán llevar su propia imagen, descripción y URL.
- Podrán gestionarse tanto desde la versión web, como desde Medeley Desktop.
- Debemos tener en cuenta las limitaciones en cuanto a la creación y gestión de grupos (versión gratuita).

## Tipos de grupos

- Los tipos de grupos que podremos crear son:
  - Públicos
  - Sólo invitados
  - Privados

## Grupos públicos

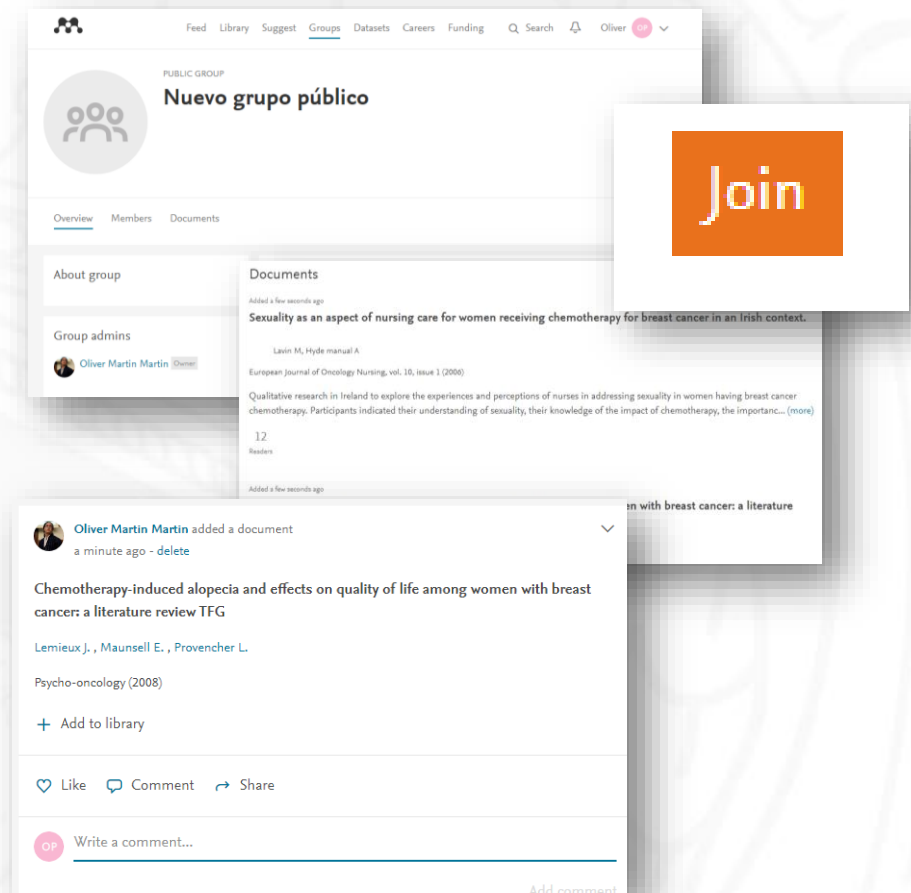

- Cualquiera con cuenta en Mendeley puede verlo y añadir referencias, comentarios...
- Podrán unirse al grupo libremente
- No se comparte el PDF, sólo las referencias

The screenshot displays the Mendeley interface for a public group. At the top, there is a navigation bar with options like 'Feed', 'Library', 'Suggest', 'Groups', 'Datasets', 'Careers', and 'Funding'. The main header shows 'PUBLIC GROUP' and 'Nuevo grupo público'. A prominent orange 'Join' button is overlaid on the right side. Below the header, there are tabs for 'Overview', 'Members', and 'Documents'. The 'Documents' section lists several references, including 'Sexuality as an aspect of nursing care for women receiving chemotherapy for breast cancer in an Irish context.' and 'Chemotherapy-induced alopecia and effects on quality of life among women with breast cancer: a literature review TFG'. A user 'Oliver Martin Martin' is shown as the group admin. At the bottom, there is a 'Write a comment...' field.

## Grupos sólo invitados

- Sólo los invitados puede verlo y añadir referencias, comentarios...
- Los invitados deberán unirse al grupo
- No se comparte el PDF, sólo las referencias

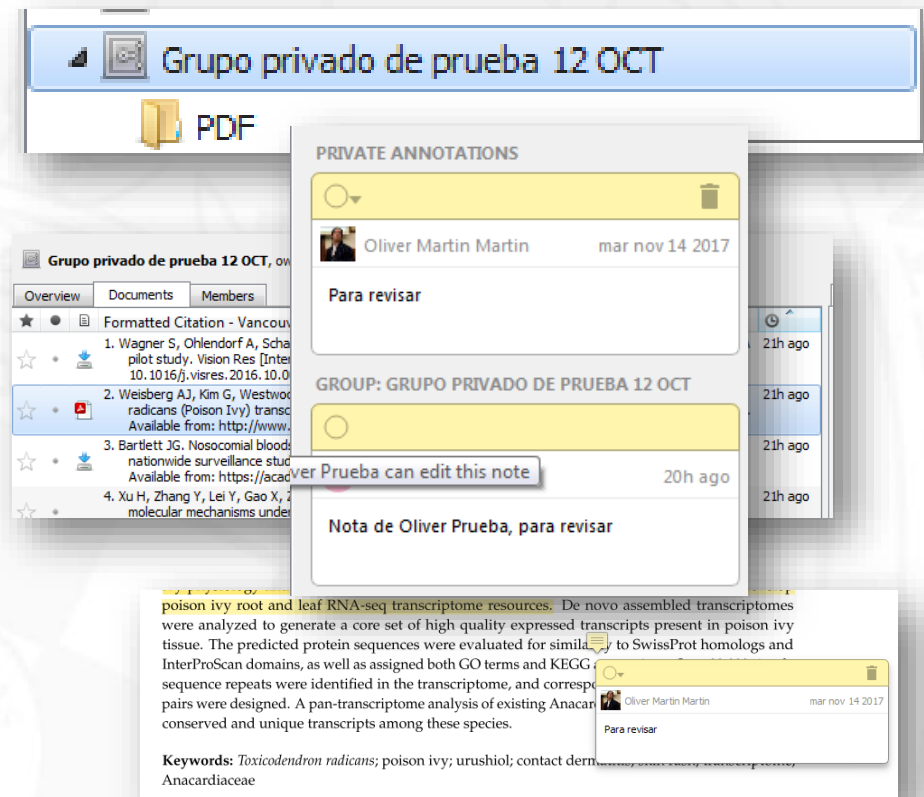

The screenshot displays a public group interface. At the top, there's a navigation bar with options like 'Feed', 'Library', 'Suggest', 'Groups', 'Datasets', 'Careers', and 'Funding'. The group is titled 'Nuevo grupo público' and has a 'Join' button. Below the group name, there are tabs for 'Overview', 'Members', and 'Documents'. The 'Documents' section lists several articles, including 'Sexuality as an aspect of nursing care for women receiving chemotherapy for breast cancer in an Irish context.' and 'Chemotherapy-induced alopecia and effects on quality of life among women with breast cancer: a literature review TFG'. A notification from 'Oliver Martin Martin' is visible, stating 'added a document a minute ago - delete'.

## Grupos privados

- No son públicos, no se pueden localizar en Mendeley
- Pensados para grupos reducidos
- Permite compartir los PDF
- Anotaciones y subrayados colaborativos entre los miembros del grupo

Para revisar

GROUP: GRUPO PRIVADO DE PRUEBA 12 OCT

Oliver Prueba can edit this note 20h ago

Nota de Oliver Prueba, para revisar

poison ivy root and leaf RNA-seq transcriptome resources. De novo assembled transcriptomes were analyzed to generate a core set of high quality expressed transcripts present in poison ivy tissue. The predicted protein sequences were evaluated for similarity to SwissProt homologs and InterProScan domains, as well as assigned both GO terms and KEGG sequence repeats were identified in the transcriptome, and corresponding pairs were designed. A pan-transcriptome analysis of existing Anacardium conserved and unique transcripts among these species.

**Keywords:** *Toxicodendron radicans*; poison ivy; urushiol; contact dermatitis; Anacardiaceae

A pesar de trabajar con la bibliografía a través de cualquier gestor o herramienta, **siempre deberemos realizar una revisión posterior** de cada referencia para comprobar su exactitud y veracidad.
