Manejo de PDFs

Desde Edit, Preferences seleccionamos PDF Handling. Podemos establecer una carpeta inteligente para incorporar PDFs de forma automática y renombrarlos.

ENDNOTE X

Visor de PDFs

Desde el visor de PDFs podemos resaltar, subrayar o añadir notas a nuestros PDFs.

Grupos

Desplegando el menú Groups, podemos crear tres clases de grupos:

- Group: la misma referencia puede aparecer en varios grupos sin considerarse duplicada.
- Smart Group*: A partir de una búsqueda definida por nosotros. Se actualiza automáticamente.
- From Groups (Combined Group)*: el resultado de combinar varios grupos con los operadores AND, OR y NOT. Se actualiza automáticamente.

Las referencias pueden moverse de una carpeta a otra simplemente arrastrando y soltando.

* Los Smart groups, From Groups y Groups Sets no se visualizan en EndNote online.

ENDNOTE

THE AUTHOR LIST: GIVING CREDIT WHERE CREDIT IS DUE

The first author Senior grad student on the project. Made the figures. The third author First year student who actually did the experiments, performed the analysis and wrote the whole paper. Thinks being third author is "fair". The second-to-last author Ambitious assistant professor or post-doc who instigated the paper.

ORGE CHAM C 2005

Michaels, C., Lee, E. F., Sap, P. S., Nichols, S. T., Oliveira, L., Smith, B. S.

The second author Grad student in the lab that has nothing to do with this project, but was included because he/she hung around the group meetings (usually for the food).

The middle authors Author names nobody really reads. Reserved for undergrads and technical staff. The last author The head honcho. Hasn't even read the paper but, hey, he got the funding, and his famous name will get the paper accepted. www.phdcomics.com
